

AN OHIOHEALTH AFFILIATE

Southeastern Ohio Regional Medical Center

Community Health Needs Assessment

October 3, 2022

Southeastern Ohio Regional Medical Center is a premier medical facility located in Cambridge and serving Guernsey and Noble Counties in southeastern Ohio. Over the years, we've grown from a small community hospital into an innovative and efficient health care facility serving over 4,000 inpatient and 100,000 outpatient community members each year.

Introduction

Located in Guernsey County, Ohio, Southeastern Ohio Regional Medical Center (SEORMC) has served Guernsey and Noble Counties and surrounding communities since 1952. SEORMC continues to address the changing healthcare needs of the local communities (Southeastern Med Hospital, 2019). SEORMC is also more commonly called Southeastern Med and/or Guernsey Health Systems in the community. SEORMC, and its compassionate team of healthcare providers and support staff, provides top quality, holistic care to patients and families within their own local community (Southeastern Med Hospital, 2019). Southeastern Ohio Regional Medical Center, located at 1341 Clark St., Cambridge, Ohio 43725, is a 98-bed hospital facility that offers adult medical and surgical care, an adult intensive care unit and labor and delivery services (Southeastern Med Hospital, 2019). Southeastern Ohio Regional Medical Center has 56 active medical staff, and offers various surgical procedures, treatment options, therapies and primary care services. Outpatient services include laboratory services, computed tomography (CT) scanning, mammography, magnetic resonance imaging (MRI), x-ray, oncology and infusion services, and a cardiac and pulmonary rehabilitation program (Southeastern Med Hospital, 2019). In 2020, Southeastern Ohio Regional Medical Center had 2,603 inpatient admissions, 19,290 emergency department visits, 118,857 outpatient visits and 2,833 surgeries.

SEORMC operates six satellite facilities: (a) Outpatient Laboratory draw station located at 1452 Clark St., Cambridge, Ohio 43725 (Guernsey County); (b) Outpatient Physical Therapy Caldwell Office located at 18125 Woodfield Road, Caldwell, Ohio 43724 (Noble County); (c) Family Practice Office located at 18125 Woodfield Rd., Caldwell, Ohio, 43724 (Noble County); (d) WorkPro Occupational Medicine located at 10095 Brick Church Rd, Cambridge, Ohio 43725 (Guernsey County); and (e) Outpatient Physical Therapy Cambridge Office located at 10095 Brick Church Rd, Cambridge, OH 43725 (Guernsey County). SEORMC also operates the which is a multidisciplinary approach to cancer treatment. The John W. and Edna McManus Shepard Cancer Center located at 1455 Clark Street, Cambridge, Ohio, offers state-of-the-art equipment for radiation oncology, 3D treatment planning and delivery techniques and intensity modular radiation therapy (IMRT).

SEORMC has been an affiliate of OhioHealth since 2017. OhioHealth is a nationally recognized, not-for-profit, charitable, healthcare outreach of the United Methodist Church. Based in Columbus, Ohio, OhioHealth is currently recognized by Fortune Magazine as one of the “100 Best Companies to Work For.” Serving its communities since 1891, it is a family of 30,000 associates, physicians and volunteers, and a network of 12 hospitals, 60+ ambulatory sites, hospice, home-health, medical equipment, and other health services spanning a 47-county area (OhioHealth, 2015-2021). OhioHealth’s mission is “to improve the health of those we serve.” Through its affiliation with OhioHealth, SEORMC is a member of the OhioHealth Stroke Network and has access to OhioHealth’s expertise in heart and vascular care, cancer care, genetic counseling, and hospital management.

SEORMC has received various awards, recognitions related to excellent patient care, and the use of advanced technology:

- **The Joint Commission - Joint Commission Accreditation** — Joint Commission standards are the basis of an objective evaluation process that can help health care organizations measure, assess, and improve performance. The standards focus on patient care and organization functions that are essential to providing safe, high-quality care. Earning their seal of accreditation is one of the highest honors a hospital can achieve.
- **Approved Provider Unit through Ohio Nurses Association (ONA) for continuing nursing education-2021** — ONA is the largest approver unit of continuing education in the country, accredited by the American Nurses Credentialing Center’s Commission on Accreditation. An approved provider unit with distinction is the highest honor awarded to provider units through the ONA (Ohio Nurses Association, 2021)
- **Accreditation by Commission on Cancer (CoC) in 2020** — awarded by the American College of Surgeons in recognition of SEORMC’s cancer programs and services, and outreach, which recognizes the hospital’s commitment to providing comprehensive, high-quality, and multidisciplinary patient centered care.

- **Commission on Cancer Accreditation through 2022** — The Commission on Cancer (CoC), a program of the American College of Surgeons, recognizes cancer care programs for their commitment to providing comprehensive, high quality, and multidisciplinary patient centered care. Through the CoC, Southeastern Med's Cancer Center has access to reporting tools to aid in benchmarking and improving outcomes.
- **National Accreditation Program for Breast Centers** — Accreditation by the National Accreditation Program for Breast Centers (NAPBC) is granted only to those centers that have voluntarily committed to provide the highest quality care to patients with diseases of the breast. Each center must undergo a rigorous evaluation and review of its performance and compliance with the NAPBC standards.
- **American College of Radiology Breast Imaging Center of Excellence** — The Breast Imaging Center of Excellence (BICOE) designation is awarded to breast imaging centers that achieve excellence by seeking and earning accreditation in all ACR voluntary breast-imaging accreditation programs and modules, in addition to the mandatory Mammography Accreditation Program.
- **American College of Radiology (ACR) Accreditation (The Gold Standard)** — From 2021 to 2023, SEORMC is recognized as the gold standard in medical imaging. By displaying the gold seals of ACR Accreditation, you can demonstrate to your patients, payers and referring physicians that you are committed to providing the safest and best quality care possible.
- **College of American Pathologists Accreditation 2019 & 2021** —The College of American Pathologists (CAP's) Laboratory Accreditation Program accredits the entire spectrum of laboratory test disciplines with the most scientifically rigorous customized checklist requirements.
- **Sleep Lab Accreditation through Accreditation Commission for Health Care IACHC** — By achieving ACHC Accreditation, sleep health care providers demonstrate their commitment to providing the highest-quality service through compliance with national regulations and industry best practices.
- **Lifeline of Ohio HRSA Platinum award in 2020 and 2021** — Lifeline of recognizes SEORMC for meeting all campaign goals including hospital activities, registered donors, and promotion of the organization.
- **BREW (Boldly Recognizing Exceptional Women) Awarded to SEORMC CEO in 2021**— The Cambridge Area Chamber of Commerce awarded Wendy Elliott (SEORMC CEO) for her exceptional work and leadership within the community. The BREW Award is given to exceptional women who live or work in Cambridge, Ohio (Guernsey County) and have demonstrated through example or deeds and who has served as role models to empower others.

The Patient Protection and Affordable Care Act of 2010 requires not-for-profit hospitals to conduct a community health needs assessment (CHNA) once every three years (Internal Revenue Service, 2018). Southeastern Ohio Regional Medical Center (SEORMC) utilized the priority health needs that were identified in the following:

- Guernsey County Community Health Assessment — publicly released in June 2020
- Guernsey County Community Health Improvement Plan — publicly released in July 2021
- Noble County Community Health Assessment — publicly released in March 2022

On 7/19/2022, SEORMC sent a letter to the community that summarizes the priority health needs, priority factor, and the alignment with the State Health Improvement Plan. The letter was sent to representatives from the Cambridge-Guernsey County Health Department and the Noble County Health Department, and organizations representing medically underserved, low-income, minority populations in Guernsey and Noble Counties.

SEORMC’s priority health needs, priority factor and alignment with the State Health Improvement Plan (SHIP) are summarized in the Table below.

| Priority Need/Factor | SEORMC Prioritized Needs | Cambridge-Guernsey Health Department | Noble County Health Department | Align with the State Health Improvement Plan? |
|----------------------|---|--|--|---|
| Priority Need | Drug addiction and substance use | Drug addiction | Substance Use | Yes |
| Priority Need | Chronic disease (obesity, heart disease, diabetes, high cholesterol, high blood pressure) | Chronic disease (obesity, heart disease) | Chronic disease (diabetes, heart disease risk factors such as high cholesterol, high blood pressure) | Yes |
| Priority Need | Mental health (anxiety and depression) | Mental health (depression) | Mental health (anxiety and depression) | Yes |
| Priority Factor | Community conditions (Including poverty) | Poverty | Not applicable | Yes |

In partnership with the Cambridge-Guernsey County Health Department and the Noble County Health Department and various community stakeholders, SEORMC has developed the 2023–2025 Implementation Strategy to meet community health needs in Guernsey and Noble Counties. Through these efforts, SEORMC aims to fulfill its mission, *“to provide high quality, comprehensive, affordable, patient-centered health care in a caring and safe environment while addressing community needs.”* Moreover, SEORMC’s Implementation Strategy will include actions and strategies that align with the Ohio 2020–2022 State Health Improvement Plan (Health Policy Institute of Ohio and Ohio Department of Health, 2020).

For information about SEORMC’s CHNA process and for a copy of the reports please visit <https://www.seormc.org/about/community-health-needs-assessment.html> or contact Wendy Elliott, president, telephone number 740-439-8112, email Wendy.Elliott@ohiohealth.com. Written comments regarding this CHNA report may also be submitted to Wendy Elliott.

A. Definition of the Community Served by the Hospital Facility and How the Community Served Was Determined

A – 1. Hospital Location and ZIP Codes of Communities Served

The Southeastern Ohio Regional Medical Center (SEORMC) is located at 1341 Clark St, Cambridge, OH 43725. SEORMC serves primarily residents from Guernsey and Noble Counties. The Guernsey County Zip Codes include all of 43722, 43723, 43725, 43732, 43733, 43736, 43749, 43750, 43755, 43768, 43772, 43773, 43778, 43780, and part of 43762, 43832, 43837, 43973, 43983 and 44699 (Zip-Codes, 2003-2022). The Noble County Zip Codes include all of 43711, 43717, 43724, 43779, 43788 and 45727 and part of 43732, 43772, 43773, 43778, 43780, 45715, 45744, 45745 and 45746 (Zip-Codes, 2003-2022).

A – 2. Percentage of Patients Served from Guernsey and Noble Counties, Ohio

A – 2.1. Outpatient

Review of SEORMC internal data has shown that for Calendar Year 2021, 73.8 percent of all patients who had outpatient visits and/or procedures at SEORMC resided in **Guernsey County** at the time of outpatient visits and/or when the procedure was done. Total of 9.7 percent of all patients who had outpatient visits and/or procedures at SEORMC resided in **Noble County** at the time of outpatient visits and/or when the procedure was done.

A – 2.2. Inpatient

Review of SEORMC internal data has shown that for Calendar Year 2021, 70.4% of patients who were admitted to the hospital reside in Guernsey County and 9% came from Noble County at the time of admission.

A – 2.3. Emergency Department

Review of SEORMC internal data has shown that for Calendar year 2021, 76.1% of patients who were seen at the Emergency Department reside in Guernsey County and 7.5% reside in Noble County.

B. Community Demographics

B – 1. Total population

Guernsey County – In 2021, the population of Guernsey County was 38,438. (Ohio Department of Development, n.d.).

Noble County – In 2021, the population of Noble County was 14,115. (Ohio Department of Development, n.d.).

B – 2. Race and Ethnicity

Guernsey County – In 2021, among Guernsey County residents, 95 percent were White, 1.1 percent were African American, 0.2 percent were Native American, 0.1 percent were Asian, 0 percent Hawaiian or Pacific Islander, 0.9 percent were Hispanic (may be of any race), 0.8 percent were Other Races, and 2.4 percent were from two or more races (Ohio Development Services Agency, n.d.). Minorities represented 5.8 percent of the total population (Ohio Department of Development, n.d.).

Noble County – In 2021, among Noble County residents, 92.6 percent were White, 5.6 percent were African American, 0.2 percent were Native American, 0.1 percent were Asian, 0 percent Hawaiian or Pacific Islander, 0.9 percent were Hispanic (may be of any race), 0.7 percent were Other Races, and 0.8 percent were identified as two or more races (Ohio Development Services Agency, n.d.). Minorities represented 7.5 percent of the total population (Ohio Department of Development, n.d.).

B – 3. Age

Guernsey County – In 2020, among Guernsey County residents, 5.9 percent of the population were younger than 5-years-old, 16.2 percent were ages 5–17, 7.9 percent were ages 18–24, 22.9 percent were ages 25–44, 28 percent were ages 45–64 and 19.1 percent were 65 years or older. The median age was 42.2 years (Ohio Department of Development, n.d.).

Noble County – In 2020, among Noble County residents, 4.9 percent of the population were younger than 5-years-old, 13.6 percent were ages 5–17, 4.7 percent were ages 18–24, 22.3 percent were ages 25–44, 27.8 percent were ages 45–64 and 26.7 percent were 65 years or older. The median age was 50.4 years (Ohio Development Services Agency, n.d.).

B – 4. Income

Guernsey County – The median household income in Guernsey County for 2021 was \$45,917 and per capita income was \$41,613. Approximately 14.8 percent of families and 19.8 percent of individuals had income below the poverty level (Ohio Department of Development, n.d.).

Noble County – The median household income in Noble County for 2021 was \$46,897 and per capita income was \$27,703. Approximately 9.1 percent of families and 15.6 percent of individuals had income below the poverty level (Ohio Department of Development, n.d.).

Additional demographic, health and social determinants of health data for Guernsey and Noble Counties are available in the following:

- 2020 Guernsey County Community Health Assessment (Illuminology, The Ohio State University, and Cambridge-Guernsey County Health Department, 2020)
- 2020 Guernsey County Community Health Improvement Plan (Illuminology, The Ohio State University, and Cambridge-Guernsey County Health Department, 2020)
- 2022 Noble County Community Health Assessment (Noble County Health Department and Hospital Council of Northwest Ohio, 2022)
- County Health Rankings (University of Wisconsin Population Health Institute and Robert Wood Johnson Foundation, 2022)
- Ohio Department of Development County Trends (Ohio Department of Development, n.d.)

C. Existing Healthcare Facilities and Resources within the Community Available to Respond to the Community's Health Needs

C – 1. Healthcare facilities and community resources that address lack of physical health care specialists

C – 1.1. Southeastern Ohio Regional Medical Center (SEORMC) — SEORMC is recognized for its specialty services such as (but not limited to) heart and vascular, pain management, sleep medicine, cancer treatment, orthopedics, neurology, pediatrics, podiatry, pulmonary care through partnership with OhioHealth (Southeastern Med Hospital, 2019).

C – 1.1.1. Heart and Vascular Services — partnering with OhioHealth cardiologists to assist patients with cardiovascular disease management, defibrillator, and pacemaker checks, holter and event monitoring, and vascular consultations. SEORMC's Cardiovascular and Pulmonary lab provides echocardiograms, transesophageal echocardiograms, stress echo, pulmonary function testing and cardiac and pulmonary rehabilitation.

C – 1.1.2. Pain Management — assists patients with chronic pain management for conditions such as neck and back pain, pinched nerves, sciatica, headaches, whiplash, arthritis, Reflex Sympathetic Dystrophy, chronic pelvic pain, shingles pain, and muscle spasms.

C – 1.1.3. Sleep Medicine — The Sleep Disorders Laboratory is equipped with the latest state-of-the-art technology and medical instruments to perform sleep evaluation studies and accurately diagnose any sleep disorder. The Sleep Disorders Laboratory is supervised by a Sleep Medicine Board-Certified physician. The Sleep Medicine team diagnose and treats sleep apnea, snoring, narcolepsy, restless legs syndrome, and insomnia.

C – 1.1.4. Cancer Services — provides cancer screenings to surgery, radiation oncology, and medical oncology including chemotherapy, immunotherapy, and hormonal therapy.

C – 1.1.5. Ambulatory Services — provides personal consultations, advanced testing, and precision non-surgical procedures to long-term recurring treatments— including chemotherapy and radiation therapy.

C – 1.1.6. Orthopedic Services — Orthopedic specialists provides treatment for conditions such as: arthritis, bone deformities, bone infections, bone spurs, bone tumors, bursitis, osteopenia, osteoporosis, and scoliosis. Injuries including anterior cruciate ligament (ACL) injuries, fractures, dislocated joints, rotator cuff injuries and repairs, sports injuries, strained or torn muscle ligaments, tendonitis, tennis elbow, and work-related injuries. SEORMC's outpatient orthopedic services is provided at the Superior Med Orthopedics-North, which is located at 1230A Clark Street, Cambridge, Ohio 43725. The top clinical diagnoses of patients seen include osteoarthritis of the knee, osteoarthritis of the shoulder, pain in the front of the knee or kneecap, neck pain, pain in tendon of the wrist and lower thumb, hip pain, pain and stiffness of shoulder.

C – 1.1.7. Neurology Services — equipped with the latest equipment to offer tests such as: Computerized Axial Tomography (CAT), Electroencephalography (EEG), Electromyography (EMG), and Magnetic Resonance Imaging (MRI)

C – 1.1.8. Pediatrics — provide wellness checks, immunizations, evaluations of development, and safety and behavioral education.

C – 1.1.9. Foot and Ankle Care and Podiatry — provides medical care to patients with medical care related to the foot. SEORMC's outpatient foot and ankle care and podiatry is provided at the Superior Med Foot and Ankle and Podiatry, which is located at 1230B Clark Street, Cambridge, Ohio 43725. The top clinical diagnoses of patients seen at the Superior Med Foot and Ankle and Podiatry include ringworm of nails, Type 2 diabetes mellitus with polyneuropathy, Type 2 diabetes mellitus with foot ulcer, Inflammation of the plantar fascia, pain in right foot, paresthesia of skin, ingrown nail, non-pressure chronic ulcer of the foot, hammer toes, follow-up exam post treatment.

C – 1.1.10. Pulmonary Care — Offers complete pulmonary and diagnostic treatment options for conditions such as Chronic Obstructive Pulmonary Disease (COPD), asthma, cystic fibrosis, pneumonia, tuberculosis, pulmonary hypertension, pulmonary embolism, and pulmonary edema.

SEORMC's outpatient pulmonary care is provided at the Superior Med Pulmonary Clinic, which is in 1335 Clark Street, Cambridge, Ohio 43725. The Superior Med Pulmonary Clinic specializes in pulmonary care, critical care, and sleep medicine. The top clinical diagnoses of patients seen in the Superior Med Pulmonary Clinic include obstructive sleep apnea, unspecified atrial fibrillation, pneumonia due to unspecified organism, pneumonia due to SARS-associated coronavirus, chronic obstructive pulmonary disease, bronchiectasis with acute exacerbation, acute and chronic respiratory failure with hypoxia, cough, shortness of breath.

C – 1.1.11. Urology — partnered with OhioHealth, SEORMC offers issues such as kidney stones, urinary incontinence, prostate disease and enlargement, urinary tract infections and diagnosis and treatment of prostate, kidney, and bladder cancers.

SEORMC's outpatient urology care is provided at the The Superior Med Urology Clinic, which is located at 1200 Clark Street, Cambridge, Ohio 43725. The top clinical diagnoses of patients include prostate cancer, urinary bladder cancer, kidney infection, kidney swelling, kidney stones, urge incontinence, enlargement of the prostate gland, elevated prostate specific antigen (PSA).

C – 1.2. Medical Associates — Medical Associates of Cambridge's goal is "to provide the highest quality, compassionate, preventative, and chronic care in our region (Medical Associates of Cambridge, 2022)." Medical Associates offers the following:

C – 1.2.1. Annual well visits — assesses routine objective measurements and up-to-date screenings

C – 1.2.2. On site laboratory services — provide prompt and accurate laboratory results

C – 1.2.3. Diabetes management — which provides diabetes education, management resources, and preventative measures

- C – 1.2.4. Care Coordination and transition of care** — assists with communications, access to medical care and home and community services, care plans, disease management, care post hospitalization, advance care planning, scheduling follow-up appointments
- C – 1.2.5. Senior care advantage** — focuses on strong relationships between patients and doctors to attain good health outcomes
- C – 1.3. Muskingum Valley Health Centers** — offers adult health, women’s health, child health, podiatry, dental care, behavioral health, and addiction services (Muskingum Valley Health Centers, 2022)
 - C – 1.3.1. Adult health** — offers acute care and chronic management, podiatry services, minor surgeries, counseling, mental health care, laboratory services, referral, assistance with medications, diabetes education.
 - C – 1.3.2. Women’s health** — offers standard gynecological exams, Pap smears, breast exams, birth control, colposcopies, biopsies in the endometrium, prenatal and obstetrics care, childbirth education, parenting, cessation of smoking.
 - C – 1.3.3. Child health** — offers health care services from birth to age 19. Services include well-care check-ups
 - C – 1.3.4. Podiatry** — treats persistent or sudden onset problems of the ankle and foot. The podiatry service specializes in bunions, calluses, corns, diabetic foot exams, hammertoes, heel pain, ingrown toenails, plantar warts.
 - C – 1.3.5. Dental care** — provides primary dental services and individualized treatment plans related to dental health needs
 - C – 1.3.6. Behavioral health** — provides telehealth or in-person visits for people who have depression, stress, feeling anxious, or vulnerable.
 - C – 1.3.7. Addiction services** — includes outpatient counseling (drug/alcohol assessments, psychiatry, individual counseling), management of withdrawal symptoms, and linkage to high level of care.
- C – 1.4. Genesis Healthcare System** — Genesis Healthcare System offers primary care, heart and vascular services, orthopedics, cancer care, surgical services, neuroscience, emergency and trauma, women’s services, and lung services (Genesis Healthcare System, 2022).
 - C – 1.4.1. Primary Care** — family medicine or internal medicine physician or an advanced practice provider provides care for patients with back strains and sprains, X-rays, skin tag removal, sinus infection, flu symptoms, urinary tract infections, rashes, well woman exams, and other acute and chronic conditions. Primary care services are available in Coshocton, Crooksville, Dresden, Junction City, New Concord, New Lexington, Somerset, and Zanesville.
 - C – 1.4.2. Heart and Vascular Services** — comprised of cardiologists, cardiothoracic and vascular surgeons, electrophysiologists, interventional cardiologists, cardiac anesthesiologists and cardiac rehabilitation specialists. The structural heart program offers access to robotic-assisted and minimally-invasive procedures such as (a) Patent Foramen Ovale Closure, Transcatheter Aortic Valve Replacement (TAVR) and Impella Heart Pump Implementation. Patients also have access to heart and vascular rehabilitation, Anticoagulation Clinic, Vein Center, Congestive Heart Failure Clinic.
 - C – 1.4.3. Orthopedics** — services for treating problems of the joint, bones and muscles. These include (a) nonsurgical services and treatments, (b)

orthopedic surgery, (c) physical therapy, (d) occupational therapy, (e) sports medicine, (e) orthopedic Walk-In Clinic for minor injuries, and (f) gym for exercising under medical supervision.

C – 1.4.4. Cancer Care — certified by the American Society of Clinical Oncology. The team is made up of cancer surgeons, oncologists, pathologists, oncology certified nurses, and plastic surgeons that provides initial biopsy, diagnosis, surgery, treatment, follow-up and survivorship. The cancer services include (but not limited to) (a) Breast Care Center, (b) Cancer Care Center, (c) Inpatient care, (d) Palliative Care, (e) Women’s Boutique, (f) Cancer Rehabilitation, and (g) education, nutrition and support.

C – 1.4.5. Surgical services — The Genesis Center of Surgical Excellence offers minimally invasive and robotic-assisted surgery, and endoscopic procedures.

C – 1.4.6. Neuroscience — The Genesis Neuroscience Center offers (a) diagnostic imaging, (b) neurology, (c) neurosurgery, physical therapy, occupational therapy, and other rehabilitation services. Doctors provide diagnosis and treatment of nervous system conditions include (a) acquired brain injury, (b) Alzheimer’s Disease, (c) Back and neck pain, (d) Bell’s palsy, (e) brain aneurysm, (f) brain and spine malformations, (g) brain and spinal cord tumor, carpal tunnel syndrome, (h) degenerative disc disease, (i) epilepsy, and (j) other neurological conditions.

C – 1.4.7. Emergency and trauma — Genesis provide emergency and trauma services for broken bones, chest pain, major allergic reactions, non-stop vomiting, allergic reactions, severe burns, stroke, chest pain, suicidal thoughts, trauma, difficulty breathing, uncontrolled bleeding. The Emergency Department has a community ambulance service and offers support for sexual assault and domestic violence.

C – 1.4.8. Women’s services — Genesis services include (but not limited to): (a) maternity services, (b) breast imaging services, (c) bone health services, (d) Genesis Women’s Boutique, and (e) pediatric hospital care. Other Women’s Services at genesis also include breast cancer rehabilitation, physical therapy, and training program for female athletes.

C – 1.4.9. Lung services — The Genesis Lung Clinic offers care for asthma, black lung disease, bronchiectasis, chronic obstructive pulmonary disease, bronchitis, emphysema, collapsed lung, empyema, coughing up blood, interstitial lung diseases, lung cancer, pleural effusions, pulmonary nodules or masses, pneumonia and respiratory failure. A respiratory therapist also hosts the Better Breathing Club to help patients with effective breathing techniques and nutrition education.

C – 2. Healthcare facilities and community resources that address lack of mental health care specialists
(chemical dependency counselors, psychiatrists, and psychologists)

C – 2.1. Southeastern Ohio Regional Medical Center — contracted with AllWell Behavioral Health Services to provide real-time mental health assessments.

C – 2.2. Allwell Behavioral Health Services — Allwell’s mission is “to help people feel better, think more clearly, make good decisions, and have healthy relationships”.

C – 2.2.1. Adult services — services include (a) FIRST episode, (b) emergency service, (c) counseling and therapy, (d) psychiatry and medication management, (e) primary care services, (f) personal growth programs, (g) crisis intervention and stabilization, (h) housing, (i) supported housing, (j) vocation programs, (k) employment programs, (l) work programs,

- (m) social drop-in centers, (n) peer support, (o) community psychiatric supportive treatment, (p) prevention and wellness, and (q) dual recovery.
 - C – 2.2.2. Children and teen services** — services include (a) diagnostic services, (b) counseling and psychotherapy services, (c) community psychiatric supportive treatment, and (d) psychiatry and medication management, (e) residential services, and (f) community education.
 - C – 2.2.3. Employer services** — includes managed care services and Employee Assistance Program
 - C – 2.2.4. Provider referral services** — collaborates with physicians, educators, employers, courts and child advocates to coordinate care and linkage process for the patients.
- C– 2.3. Genesis Healthcare System** – offers inpatient and outpatient services for adolescents and adults. The inpatient facility has a private, smoke-free, secure unit for adults and pediatrics/adolescents. The outpatient program offers group therapy, stress management, wellness activities, and social services support (Genesis Healthcare System, 2022).
- C – 2.4. Mental Health Recovery Services Board** – serves Coshocton, Guernsey, Morgan, Muskingum, Noble, and Perry Counties. The Mental Health Recovery Services Board offers (a) Narcotics Anonymous, Alcoholic Anonymous Support Groups, (b) suicide prevention coalitions, (c) Friends and Family Support Group, (d) National Alliance on Mental Illness support groups, (e) partnerships with providers. The providers and affiliates of the Mental Health and Recovery Services Board partners and affiliates in Guernsey and Noble Counties are as follows:
- C – 2.4.1. Allwell Behavioral Health Services – Guernsey Counseling Center** — located in 2500 John Glenn Highway, Cambridge, Ohio 43725 (Guernsey County)
 - C – 2.4.2. Guernsey Health Choices, Inc.** — located in 1009 Steubenville Avenue, Cambridge, Ohio 43725 (Guernsey County)
 - C – 2.4.3. Forensic Diagnostic Center of District 9** — located in 1109 Clark Street, Cambridge, Ohio 43725 (Guernsey County)
 - C – 2.4.4. Allwell Behavioral Health Services Noble Counseling Center** — located in 18003 Woodsfield Road, Suite 2, Caldwell, Ohio 43724 (Noble County)
 - C – 2.4.5. Noble Behavioral Health Choices** — 18003 Woodsfield Road, Suite 2, Caldwell, Ohio 43724 (Noble County)

C – 2.5. People to People – The mission of People to People, a mental health services agency, is to provide services that empower individuals and families to enhance their quality of life (People to People, 2021). Categories of services include (a) psychiatric services, (b) mental health services, (c) EMDR Therapy, (d) Therapy Services, (e) community support, (f) group activities, Services are provided to clients regardless of ability to pay. In-person and telehealth services are provided . Specifically, People to People offers the following services:

- C – 2.5.1.** Therapy for anxiety and depression
- C – 2.5.2.** Therapy for post-traumatic stress disorder
- C – 2.5.3.** Counseling for individuals, couples and families
- C– 2.5.4.** Parenting support
- C – 2.5.5.** Grief counseling
- C – 2.5.6.** Work and career issues

- C – 19.3. Facilities serving patients with dementia or Alzheimer’s Disease** — includes Cambridge Place, Greystone Health and Rehab of Cambridge, Cambridge Health and Rehabilitation Center, Cardinal Place (Senior Living Facilities, 2022).

C – 20. Healthcare facilities and community resources that addresses heart disease caused by smoking, poor diet, poor exercise, and high blood pressure

- C – 20.1. Southeastern Ohio Regional Medical Center/OhioHealth** —offers heart and vascular services to residents of Guernsey and Noble Counties.
- C – 20.2. Superior Med Primary Care** — offers high quality primary care in Guernsey and Noble Counties
- C – 20.3. Cambridge- Guernsey County Health Department** — include programs and services such as nursing services, women’s health, men’s health, and Women, Infants and Children (WIC).(Cambridge-Guernsey County Health Department
- C – 20.4. Noble County Health Department** — include programs and services such as women’s health, men’s health, physical exam and Women, Infants and Children (WIC).

C – 21. Healthcare facilities and community resources that addresses lung/bronchus cancer caused by smoking and other factors

C – 21.1. The John W. and Edna McManus Shepard Cancer Center — The cancer treatment program here at Southeastern Med is truly unique for a community hospital, offering patients everything from precautionary cancer screenings to surgery, radiation oncology, and medical oncology—including chemotherapy, immunotherapy, and hormonal therapy (Southeastern Med Hospital, 2022).

C – 21.2. Guernsey County Cancer Society — provides help to local cancer patients. Some of the programs include (but not limited to): (a) financial assistance for transportation to doctors and treatment centers, (b) prescription assistance not covered by health insurance, (c) treatment and home care expenses not covered by health insurance, (d) access to wigs, mastectomy, supplies and prosthesis for lymphedema, and (e) access to nutritional supplies (Guernsey County Cancer Society, Inc., 2022).

C– 22. Healthcare facilities and community resources that addresses maternal smoking while pregnant

C – 22.1. Southeastern Ohio Regional Medical Center’s Maternity Care — offers family-centered care before, during and after the delivery of the baby. Part of the education provided during the interconceptional period includes risks of maternal smoking on the health of the mother and the baby. Dr. Paul Wright and Dr. Joseph Binkiewicz provide high quality obstetrics and gynecology care. SEORMC is a Level 1 Perinatal Center (Southeastern Med Hospital, 2022).

C – 22.2. Cambridge- Guernsey County Health Department —

C – 22.2.1. Women’s Health Services — provides counseling and referrals for tobacco cessation in addition to other women’s health care services such as (but not limited to) pap and pelvic tests, clinical breast exam, mammograms, and routine laboratory work (Cambridge-Guernsey County Health Department, 2022).

C – 22.2.2. Healthy Moms, Healthy Babies — provides education, referral, and support to mothers with substance use disorders (Cambridge-Guernsey County Health Department, 2022).

C – 22.2.3. Women, Infants and Children (WIC) — funded by the United States Department of Agriculture. WIC offers education on nutrition, support on breastfeeding, access to healthy foods, and referrals to community agencies. WIC aims to promote the diet of daily food requirements (Cambridge-Guernsey County Health Department, 2022).

C – 22.3. Noble County Health Department —

C – 22.3.1. Women’s Health Services — offers exams and screenings such as (but not limited to): (a) Pap and pelvic exam, (b) clinical breast exams, (c) Human Papilloma Virus (HPV) screening, (d) birth control, (e) creation of reproductive life plans, (f) health education (including smoking cessation), (g) community referrals, (h) prevention of sexually transmitted infections, and (i) reproductive health services.

C – 22.3.2. Women, Infants and Children — a nutrition program that is funded by the United States Department of Agriculture. It serves pregnant or postpartum women, married and single parents. Services include (a) nutrition education and support, (b) breastfeeding, (c) access to healthy foods, (d) access to formula milk, (e) referrals, (f) vaccinations, and (g) referrals to Help Me Grow.

C– 23. Healthcare facilities and community resources that addresses preterm births (caused by low-birth-weight infants)

- C – 23.1. Southeastern Ohio Regional Medical Center (SEORMC)’s Obstetrics and Gynecology** — women’s health programs and services located at 1330 Clark Street, Cambridge, Ohio 43725. Physicians include (a) Dr. Robert Aepli, MD, (b) Dr. Gabriel Rosanwo, MD, (c) Dr. Dianne Schubeck, MD, (d) Dr. Joseph Binkiewicz, MD, and (e) Dr. Paul Wright, MD.
- C– 23.2. Genesis Healthcare System (2022)** — includes maternity services, breast imaging systems, bone health services, Genesis Women’s Boutique, pediatric hospital care, and education and support (Genesis Healthcare System, 2022).

D. How Data was Obtained

- D – 1. The definition of the community served by SEORMC was based on the percentage of patients served who resided in Guernsey and Noble Counties during calendar year 2021, based on review and analysis of electronic medical records. See **Section A**.
- D – 2. The demographic data of Guernsey and Noble County’s population was obtained from the Ohio Department of Development (n.d.). See **Section B**.
- D – 3. Pertinent health data from Ohio’s 2019 Community Health Assessment and 2020-2022 State Health Improvement Plan was summarized (Ohio Department of Health, n.d.). See **Appendix A**.
- D – 4. Pertinent health and social determinants of health data of Guernsey and Noble County residents were summarized from the following:
 - D – 4.1. 2020 Guernsey County Community Health Assessment (Illuminology, The Ohio State University, and Cambridge-Guernsey County Health Department, 2020). See **Appendix B**.
 - D – 4.2. 2020 Guernsey County Community Health Improvement Plan (Illuminology, The Ohio State University, and Cambridge-Guernsey County Health Department, 2020). See **Appendix B**.
 - D – 4.3. 2022 Noble County Community Health Assessment (Noble County Health Department and Hospital Council of Northwest Ohio, 2022). See **Appendix B**.
 - D – 4.4. 2022 County Health Rankings (University of Wisconsin and Robert Wood Johnson Foundation, 2022). See **Appendix B**.

No information gaps that would limit the ability to assess the community’s health needs were identified.

E. Significant Health Needs of the Community

The Southeast Ohio Regional Medical Center (SEORMC) utilized the significant health needs that were identified in the Guernsey and Noble County Community Health Assessment reports:

- 2020 Guernsey County Community Health Assessment (Illuminology, The Ohio State University, and Cambridge-Guernsey County Health Department, 2020)
- 2020 Guernsey County Community Health Improvement Plan (Illuminology, The Ohio State University, and Cambridge-Guernsey County Health Department, 2020)
- 2021 Noble County Community Health Assessment (Noble County Health Department and Hospital Council of Northwest Ohio, 2022)

The table below summarizes the SEORMC priority needs, which combined the significant health needs that were identified from the Guernsey and Noble County Community Health Assessment reports.

| Priority Need/Priority Factor | SEORMC Priority/Significant Health Needs | Cambridge-Guernsey Health Department Priority Needs (Guernsey County) | Noble County Health Department Priority Needs (Noble County) | Align with the State Health Improvement Plan? |
|-------------------------------|---|---|--|---|
| Priority Need | Drug addiction and substance use | Drug addiction | Substance Use | Yes |
| Priority Need | Chronic disease (obesity, heart disease, diabetes, high cholesterol, high blood pressure) | Chronic disease (obesity, heart disease) | Chronic disease (diabetes, heart disease risk factors such as high cholesterol, high blood pressure) | Yes |
| Priority Need | Mental health (anxiety and depression) | Mental health (depression) | Mental health (anxiety and depression) | Yes |
| Priority Factor | Community conditions (Including poverty) | Poverty | Not applicable | Yes |

F. Primary, Chronic Disease and Other Health Needs of Uninsured, Low-Income and Minority Populations

The primary and chronic disease needs and other health issues of uninsured, low-income and minority populations and the latest data for each need are summarized in Appendices A and B.

G. Process for Identifying and Prioritizing Community Health Needs

G – 1. Identification of Priority Health Needs in Guernsey County

| Date | Activity | Outcome |
|-----------------|--|--|
| June 2020 | The Guernsey County Community Health Assessment was completed and made publicly available in https://www.guernseycountyhealthdepartment.org/wp-content/uploads/2021/06/Guernsey-County-2020-Report.pdf | The community stakeholders and the public had access to the completed Community Health Assessment |
| September 2019 | The Cambridge-Guernsey Health Department hired Illuminology and The Ohio State University College of Public Health Center for Public Health Practice to develop a regional Community Health Improvement Plan | Illuminology and The Ohio State University Center for Public Health Practice in collaboration with the Cambridge-Guernsey Health Department developed an online survey to seek inputs from community members in identifying Guernsey County's priority health needs. |
| August 13, 2019 | <p>Community meeting (virtual by Zoom) was organized by the Cambridge-Guernsey County Health Department to review the Community Health Assessment and identify important health issues affecting Guernsey County. Participants were from social service and community organizations (see Appendix C).</p> <p>The criteria for the identification and prioritization of health needs include:</p> <ol style="list-style-type: none"> 1. Equity — degree by which groups are affected by a health issue 2. Size — number of people affected 3. Seriousness — degree by which the health issue leads to disability, death or poor quality of life 4. Feasibility — Ability to address the health issue based on existing resources 5. Severity potential complication if the issue is not acted upon. 6. Trends health issue gets better or worse over time 7. Intervention availability of effective and evidence-based public health strategies available 8. Value significance of the health issue to the community 9. Social Determinant/Root Cause determination whether the health needs are root causes or affected by social determinants of health | 23 important health issues affecting Guernsey County were identified during large and small group discussions. |

Continuation of G – 1. Identification of Priority Health Needs in Guernsey County

| Date | Activity | Outcome |
|-----------------|--|--|
| August 19, 2020 | The 23 health issues were sent to community members through an online survey. The participants were asked to identify top five health issues after considering social determinants of health and health inequities. | <p>Once the survey responses were received, Illuminology and The Ohio State University College of Public Health Center for Public Health Practice summarized the survey responses and identified three priority health needs.</p> <p>Priority Need 1: Drug addiction</p> <p>Priority Need 2: Chronic disease (obesity, heart disease)</p> <p>Priority Need 3: Mental health (depression)</p> <p>Crosscutting Factor: Poverty</p> |
| July 2021 | The Guernsey County Community Health Improvement Plan (CHIP) report was completed and made publicly available in https://odh.ohio.gov/static/population-health/cambridgeguernseycountyhealthchaip2021.pdf | The community stakeholders and the public have access to the Guernsey County CHIP. |

On August 13, 2020, the large and small group discussions that were held virtually via Zoom led to the identification of 23 important health issues. The list below does not represent ranking.

1. Lack of physical health care specialists
2. Lack of mental healthcare specialists (chemical dependency counselors, psychiatrists, and psychologists)
3. Lack of telehealth for those with no wifi, especially the elderly and those in rural areas
4. Lack of higher education/employment opportunities in Guernsey County
5. Lack of employment offering good pay and benefits in Guernsey County
6. Housing costs are high compared to annual income in Guernsey County
7. Neighborhoods seem less safe and supportive
8. Traumatic experiences contribute to poor health outcomes
9. Poverty contributes to poor health outcomes
10. Challenges accessing healthy, nutritious foods
11. Lack of healthy activities in Guernsey County
12. Obesity
13. Binge drinking
14. Smoking/tobacco use
15. Drug addiction
16. Chlamydia especially among young adults
17. Depression (mental health)
18. Anxiety (mental health)
19. Alzheimer's Disease/Dementia
20. Heart disease (caused by smoking, poor diet and exercise, high blood pressure)
21. Lung/bronchus cancer caused by smoking and other factors
22. Maternal smoking while pregnant
23. Preterm births caused by low birth weight infants, and other factors

As explained in Section G-1, community stakeholders identified the priority health needs by identifying top five health issues. The contractors, Illuminology and The Ohio State University Center for Public Health Practice, analyzed the survey results and presented their findings with three priority health needs and one priority crosscutting factor.

Priority Need 1: Drug addiction

Priority Need 2: Chronic disease (obesity, heart disease)

Priority Need 3: Mental health (depression)

Crosscutting Factor: Poverty

G – 2. Identification of Priority Health Needs in Noble County

| Date | Activity | Outcome |
|---------------------------|---|---|
| December 2020 to May 2021 | The Hospital Council of Northwest Ohio (HCNO) in collaboration with the Noble County Health Department and the Southeast Ohio Health Improvement Collaborative led the conduct of the Noble County Health Assessment Survey by mailing the survey instrument to 2,000 adults age 19 years and above. | 192 persons completed the Noble County Health Assessment Survey. |
| June to August 2021 | The Hospital Council of Northwest Ohio (HCNO) in collaboration with the Noble County Health Department summarized the findings from the survey. | The key findings are summarized in Appendix B, sections B-17 to B-21. |
| March 2022 | The Noble County Health Department, led by Shawn Ray, Health Commissioner publicly released the Noble County Community Health Assessment. The document is publicly available in https://noblecohd.org/wp-content/uploads/2022/08/2022-Noble-County-CHA-Report.pdf [noblecohd.org] | The community stakeholders and the public had access to the completed Community Health Assessment |

Based from the Community Health Improvement Plan (CHIP) document sent by Noble County Health Department to Southeastern Ohio Regional Medical Center (SEORMC), action plans will be developed to address the following priority health needs:

Priority 1: Substance Use

Priority 2: Chronic disease (diabetes, heart disease risk factors such as high cholesterol, high blood pressure)

Priority 3: Mental health (anxiety and depression)

G – 3. SEORMC’s Email Communication to Community Stakeholders

On July 19, 2022, the Southeastern Ohio Regional Medical Center (SEORMC) leaders Wendy Elliott (President), Gina Woods (Chief Nursing Officer) and Hannah Bingham sent an email communication to various community stakeholders, including those that serves people who are uninsured, low-income, or from minority populations in Guernsey and Noble Counties to signify that SEORMC will be utilizing the priority health needs that were identified from the Guernsey and Noble Counties’ Community Health Assessment and Community Health Improvement Plan.

Appendix C summarizes these community stakeholders, their representatives, skills and knowledge in public health, description of persons served by the organization, inputs time frame of inputs, mission of the organization, website, and examples of programs and services. The community stakeholders who provided approval to SEORMC’s priority health needs and alignment with the State Health Improvement Plan (SHIP) are indicated in Appendix C, Inputs subsection.

H. Process for Consulting with Persons Representing the Community's Interests and Input Provided

H—1. Southeastern Ohio Regional Medical Center (SEORMC)

As mentioned in Section G, the Southeastern Ohio Regional Medical Center (SEORMC) utilized the priority health needs in Guernsey and Noble Counties' Community Health Assessment and Community Health Improvement Plan.

Appendix C shows the following:

- (a) Organizations and their representatives who participated in the 2020 Guernsey County Community Health Assessment and Community Health Improvement Plan
- (b) Organizations and their representatives who participated in the 2021 Noble County Community Health Assessment
- (c) Organizations and their representatives who participated in the 2019 Southeastern Ohio Regional Medical Center (SEORMC)

For each community stakeholder listed in Appendix C, SEORMC provided the following information:

- (a) Name of organization
- (b) Name(s) of representatives
- (c) Skills and knowledge in public health
- (d) Description of medically underserved, low-income or minorities served by the organization
- (e) Description of inputs
- (f) Timeframe of inputs
- (g) Website
- (h) Mission of organization
- (i) Examples of programs and services

H — 2. SEORMC Consultation with Epstein Becker and Green

The Southeastern Ohio regional Medical Center consulted with James (Jim) G. Petrie, member of Epstein, Becker and Green, a national law firm that specializes in healthcare, life sciences and workforce management solutions (Epstein Becker and Green, P.C., 2022).

I. Impact of Actions Taken to Address the Significant Health Needs Identified in the Hospital Facility's 2019 Community Health Needs Assessment (CHNA)

Appendix D summarizes the Calendar Year 2020 and 2021 impacts of Southeastern Ohio Regional Medical Center's strategies that addressed the priority health needs in the 2019 board-approved community health needs assessment and implementation strategy (Southeastern Med, 2019). In 2019, the priority health needs that were identified include (a) mental health and addiction, (b) chronic disease, and (c) access to care.

Appendix A. Data and Information from the 2019 State Health Assessment

Appendix A – 1. Summary of Data and Information from the State Health Assessment, Ohio 2019 (Health Policy Institute of Ohio and Ohio Department of Health, 2019)

- Appendix A – 1.1.** Ohioans' overall wellbeing declined. Premature death, life expectancy and overall health worsened. The leading causes of premature death in 2017 were unintentional injuries (including drug overdose), cancer and heart disease. Ohio's life expectancy dropped from 77.6 years in 2010 to 76.5 years in 2017. Increase in infant deaths, blood pressure, late-stage cancer diagnosis was observed. Black or African Americans life expectancy in 2017 was 72.8 years compared to 77 among Whites.
- Appendix A – 1.2.** Ohioans' lack opportunities to reach full health potential. Ohioans who are black or African American, with low income, with disabilities or live in Appalachian counties have worse health outcomes compared to overall Ohio population.
- Appendix A – 1.3.** Health promotion activities need to be addressed. Interventions need to focus on the following: (i) physical activity, (ii) tobacco use, (iii) access to dental care, (iv) access to mental health, (v) income disparities, (vi) unemployment, (vii) adverse childhood experiences (ACEs), (viii) access to transportation, (ix) lead poisoning and (x) racism.
- Appendix A – 1.4.** Ohio's significant health challenges continue to be mental health and addiction, chronic disease, and maternal and infant health. Ohio's performance worsened or did not improve. Cross-cutting factors include poverty, lack of access to transportation, lack of physical activity, unhealthy eating, and lack of access to care.
- Appendix A – 1.5.** Ohio's addiction crisis increased prevalence of hepatitis and number of children in foster care.
- Appendix A – 1.6.** Multi-sector collaboration is important to improve health. Approximately 80 percent of modifiable factors that can improve health are related to health behaviors (healthy eating and tobacco cessation) and social determinants of health (housing, transportation, education, employment). Poverty, racism, discrimination, trauma, violence and toxic stress lead to health disparities.

Appendix A – 2. State of Ohio’s Progress on 2017-2019 State Health Improvement Plan’s Outcomes related to Overall Health

| Desired Outcome | Indicator | Baseline (2015) | Current Year (2017) |
|-------------------------------|---|-----------------|---------------------|
| Improve overall health status | % of adults with fair or poor health | 16.5% | 18.9% |
| Improve overall health status | <u>Worst outcome</u> – Low-income adults (less than \$15,000 annual household income) | 38.6% | 45.1% |
| Reduce premature death | Years of potential life lost before age 75, per 100,000 population (age-adjusted) | 7,876.1 | 8,774.5 |
| Reduce premature death | <u>Worst outcome</u> – Black (non-Hispanic) | 10,850.5 | 12,599 |

Appendix A – 3. State of Ohio’s Progress on 2017-2019 State Health Improvement Plan’s Outcomes related to Mental Health and Addiction

| Desired Outcome | Indicator | Baseline (2013-2014) | 2015-2016 |
|--|---|----------------------|-----------|
| Reduce depression (%) | % of persons 12-17 years with a major depressive episode in the past year | 10.33% | 13.98% |
| | % persons ages 18+ with a major depressive episode in the past year | 7.33% | 7.85% |
| Reduce drug dependence or abuse (%) | % persons age 12+ who has illicit drug dependence or abuse in the past year | 2.76% | 2.61% |
| Reduce suicide deaths | Number of suicide deaths per 100,000 population | 13.9 | 14.8 |
| | <i>Males ages 10-24</i> | 15.9 | 18.5 |
| | <i>Males ages 25-44</i> | 28.5 | 33.6 |
| | <i>White (non-Hispanic) males ages 45-64</i> | 34 | 32.1 |
| | <i>White (non-Hispanic) males ages 65+</i> | 32.2 | 33 |
| Reduce unintentional drug overdose death | Number of deaths due to unintentional drug overdoses per 100,000 population | 27.7 | 44.1 |
| | <i>White (non-Hispanic) males ages 25-44</i> | 87.1 | 136.7 |
| | <i>White (non-Hispanic) males ages 45-64</i> | 43.5 | 72.4 |
| | <i>White (non-Hispanic) females ages 25-54</i> | 39.7 | 59.9 |
| | <i>Black (non-Hispanic) males ages 25-54</i> | 50.9 | 99 |
| | <i>Black (non-Hispanic) males 55-64</i> | 74.7 | 137.8 |

Appendix A – 4. State of Ohio’s Progress on 2017-2019 State Health Improvement Plan’s Outcomes related to Chronic Disease

| Desired Outcome | Indicator | Baseline (2015) | 2017 |
|---|--|-----------------|---------|
| Reduce heart disease (%) | % of adults ever diagnosed with coronary heart disease | 4.2% | 4.7% |
| | % of adults ever diagnosed with heart attack | 4.9% | 5.5% |
| Reduce hypertension (%) | % of adults ever diagnosed with hypertension | 34.3% | 34.7% |
| | <i>Black or African American (non-Hispanic)</i> | 40.3% | 40% |
| | <i>People with a disability</i> | 53.1% | No data |
| | <i>People with less than high school diploma</i> | 40.7% | 48.9% |
| | <i>People with less than \$15,000 annual household income</i> | 35.7% | 46.6% |
| | <i>People older than 65 years</i> | 62.2% | 60% |
| | <i>People who live in Appalachian counties</i> | 39.7% | No data |
| Reduce diabetes (%) | % of adults who have been told by a health professional that they have diabetes | 11% | 11.3% |
| | <i>Black or African American (non-Hispanic)</i> | 14.1% | 14.2% |
| | <i>People with a disability</i> | 21.8% | No data |
| | <i>People with less than high school diploma</i> | 13.6% | 15.8% |
| | <i>People with less than \$15,000 annual household income</i> | 13.7% | 19.4% |
| | <i>People older than 65 years</i> | 23.4% | 22.8% |
| | <i>People who live in Appalachian counties</i> | 12.3% | No data |
| Monitor prediabetes (%) | % of adults who have been told by a health professional that they have prediabetes | 7.5% | 8.8% |
| Reduce child asthma morbidity (Emergency department visits per 10,000 children) | Emergency department visits for pediatric asthma, per 10,000 children, ages 0-17 (does not include patients with cystic fibrosis or respiratory system abnormalities or transfers) | 86.9 | 72.3 |
| | <i>Black or African American</i> | 245.6 | 175.9 |
| | <i>Appalachian counties</i> | 78.2 | No data |

Appendix A – 5. State of Ohio’s Progress on 2017-2019 State Health Improvement Plan’s Outcomes related to Maternal and Infant Health

| Desired Outcome | Indicator | Baseline (2015) | Current Year (2017) |
|------------------------------------|---|-----------------|---------------------|
| Reduce preterm births (%) | % of live births that are preterm, less than 37 weeks gestation | 10.3% | 10.4% |
| | <i>Black, non-Hispanic</i> | 14.1% | 14.3% |
| | <i>People with less than high school diploma</i> | 11.5% | 11.7% |
| | <i>Less than 18 years old</i> | 10.7% | 10.7% |
| Reduce very preterm births (%) | % of births which the newborn weighed less than 32 weeks | 1.7% | 1.8% |
| Reduce low birth-weight births (%) | % of births in which the newborn weighed less than 2,500 grams | 8.5% | 8.7% |
| | <i>Black, non-Hispanic</i> | 13.9% | 14.3% |
| | <i>People with less than high school diploma</i> | 10.8% | 11.3% |
| | <i>Less than 18 years old</i> | 10.2% | 10.8% |
| Reduce infant mortality | Rate of infant deaths per 1,000 live births | 7.2 | 7.2 |
| | <i>Black, Non-Hispanic</i> | 15.2 | 15.8 |
| Reduce neonatal infant deaths | Rate of neonatal infant deaths per 1,000 live births | 4.8 | 5 |
| Reduce post-neonatal infant deaths | Rate of post-neonatal infant deaths per 1,000 live births | 2.4 | 2.2 |

Appendix B. Summary of Guernsey and Noble Counties Health and Social Determinants of Health Data

Appendix B –1. 2020 Guernsey County Health Survey — Most Important Health Issues Affecting Guernsey County based from the (Illuminology, The Ohio State University College of Public Health and Cambridge-Guernsey Health Department, 2020).

| | Guernsey County (497 respondents) |
|--|--|
| Drug abuse; alcohol abuse; addiction | 48.2% |
| Cost of health insurance or health care | 12.8% |
| Obesity; poor diet; lack of exercise | 10.6% |
| Cancer | 10.2% |
| Access to doctors or quality health care | 7.8% |
| Depression; mental health | 5.1% |
| COVID-19 | 4.9% |
| Low-income; poverty; homelessness | 3.9% |
| Heart disease; high blood pressure; high cholesterol | 3.5% |
| Pollution; water quality; air quality | 3.1% |
| Flu | 2.6% |
| Other | 13.6% |

Appendix B – 2. 2020 Guernsey County Health Survey — Reasons Respondents Delayed Medical Care based from the (Illuminology, The Ohio State University College of Public Health and Cambridge-Guernsey Health Department, 2020).

| | Guernsey County (680 respondents) |
|--|--|
| Didn't have insurance | 7.6% |
| Could not afford the co-pay | 6.8% |
| Couldn't schedule an appointment soon enough | 2.8% |
| Didn't have transportation | 1.7% |
| Couldn't schedule an appointment at all | 0.4% |
| Other | 5.4% |
| Didn't delay medical care | 79.5% |

Appendix B – 3. 2020 Guernsey County Health Survey — Reasons Respondents Didn't Fill Prescriptions Based from the (Illuminology, The Ohio State University College of Public Health and Cambridge-Guernsey Health Department, 2020).

| | Guernsey County (680 respondents) |
|-------------------------------------|--|
| Could not afford the co-pay | 4.8% |
| Didn't have insurance | 1.5% |
| Didn't have transportation | 0.2% |
| Other | 2.7% |
| Prescriptions were filled if needed | 91.4% |

Appendix B – 4. 2020 Guernsey County Health Survey — Reasons Respondents Traveled Outside of Guernsey County to Receive Medical Care based from the (Illuminology, The Ohio State University College of Public Health and Cambridge-Guernsey Health Department, 2020).

| Type of Care | Guernsey County (245 respondents) |
|--|-----------------------------------|
| Primary care | 13.3% |
| Vision/dental care | 14.7% |
| Cardiovascular/respiratory care | 14.3% |
| Bone and joint/rheumatology | 13.2% |
| Women's health/obstetrics and gynecology | 9.5% |
| Skin care (dermatology) | 7.2% |
| Mental health care | 6.4% |
| Endocrine system/diabetic care | 5.1% |
| Cancer | 4.7% |

Appendix B – 5. 2020 Guernsey County Health Survey — Self-Reported Use of Tobacco, Alcohol and Marijuana (Illuminology, The Ohio State University College of Public Health and Cambridge-Guernsey Health Department, 2020).

| | Guernsey County (666 respondents) |
|---------------------------------|-----------------------------------|
| Cigarettes | 19.6% |
| E-cigarettes (Juil) | 4.2% |
| Other tobacco/nicotine products | 10.8% |
| Binge-drinkers | 29.2% |
| Medical Marijuana use | 4.3% |
| Recreational Marijuana use | 5.6% |

Appendix B – 6. 2020 Guernsey County Health Survey — Self-Reported Knowing Anyone Abusing Drugs or Having an Addiction Problem based from the (Illuminology, The Ohio State University College of Public Health and Cambridge-Guernsey Health Department, 2020).

| | Guernsey County (644 respondents) |
|----------------------------|-----------------------------------|
| Heroin | 11.8% |
| Methamphetamines | 16.4% |
| Prescription pain medicine | 24.7% |
| Any one of the above | 47.5% |

Appendix B – 7. 2020 Guernsey County Health Survey — Self-Reported Body Mass Index (BMI) based from ((Illuminology, The Ohio State University College of Public Health and Cambridge-Guernsey Health Department, 2020).

| | Guernsey County (668 respondents) |
|------------------------------------|-----------------------------------|
| Underweight (BMI < 18.5) | 1.7% |
| Normal weight (BMI = 18.5 to 24.9) | 22.5% |
| Overweight (BMI = 25 to 29.9) | 30.8% |
| Obese (BMI > 29.9) | 45% |

Appendix B – 8. 2020 Guernsey County Health Survey — Self-Reported Nutrition or Healthy Eating (Illuminology, The Ohio State University College of Public Health and Cambridge-Guernsey Health Department, 2020).

| | Guernsey County (653 respondents) |
|--|---|
| Drank 100% fruit juice in the past 7 days | 54.9% (average of 2.3 times in the past 7 days) |
| Ate fruit | 82.7% (average of 5 times in the past 7 days) |
| Ate vegetables | 95.4% (average of 7 times in the past 7 days) |
| Drank a can, bottle, or glass of soda or pop | 56.2% (average of 2.9 times in the past 7 days) |
| Ate fast food | 72.1% (average of 1.7 times in the past 7 days) |

Appendix B – 9. 2020 Guernsey County Health Survey — Self-Reported Physical Activity in Past 7 Days (Illuminology, The Ohio State University College of Public Health and Cambridge-Guernsey Health Department, 2020).

| | Guernsey County (643 respondents) |
|---|--|
| Engaged in physical activity for a total of at least 30 minutes on average in past 7 days | 4.1 days |
| Exercises to strengthen or tone muscles on average in past 7 days | 1.2 days |

Appendix B – 10. 2020 Guernsey County Health Survey — Self-Reported Average Daily Hours Spent on Television, Internet and Sleep based from the (Illuminology, The Ohio State University College of Public Health and Cambridge-Guernsey Health Department, 2020).

| | Guernsey County (642 respondents) |
|---|--|
| Average hours per day watching television | 3.1 hours |
| Average hours per day on the Internet | 2.5 hours |
| Average hours of sleep each night | 6.9 hours |

Appendix B – 11. 2020 Guernsey County Health Survey — Self-Reported Diagnoses of Mental Health Conditions based from the (Illuminology, The Ohio State University College of Public Health and Cambridge-Guernsey Health Department, 2020).

| | Guernsey County (679 respondents) |
|---|--|
| Ever been diagnosed with a depressive disorder including depression and dysthymia) | 23% |
| Ever been diagnosed with an anxiety disorder including acute stress disorder, generalized anxiety disorder, obsessive-compulsive disorder, panic disorder, post-traumatic stress disorder, or social anxiety disorder | 20.9% |

Appendix B – 12. 2020 Guernsey County Health Survey — Self-Reported Poor Mental Health Days in the Past 30 (Illuminology, The Ohio State University College of Public Health and Cambridge-Guernsey Health Department, 2020).

| | Guernsey County (673 respondents) |
|--|--|
| Percent of respondents who had at least 1 poor mental health day | 37% |
| Average number of days with poor mental health | 4.2 days |
| Percent of respondents for whom mental health affected their level of activity | 22.7% |
| Average number of days by which activity levels were affected | 2.3 days |

Appendix B – 13. 2020 Guernsey County Health Survey — Self-Reported Perceptions of Health Status (Illuminology, The Ohio State University College of Public Health and Cambridge-Guernsey Health Department, 2020).

| | Guernsey County (673 respondents) |
|-------------------------|--|
| Excellent health status | 11% |
| Very good health status | 41% |
| Good health status | 33% |
| Fair health status | 11% |
| Poor health status | 4% |

Appendix B – 14. 2020 Guernsey County Health Survey — Self-Reported Poor Physical Health Days in the Past 30 Days (Illuminology, The Ohio State University College of Public Health and Cambridge-Guernsey Health Department, 2020).

| | Guernsey County (670 respondents) |
|--|--|
| Percent of respondents having at least 1 poor physical health day | 47% |
| Average days with poor physical health | 4.6 days |
| Percent of respondents who had activity levels that were affected for at least 1 day due to poor physical health | 32.9% |
| Average days when activity levels were affected by poor physical health | 3.2 days |

Appendix B – 15. 2020 Guernsey County Health Survey — Self-Reported Diagnoses of Chronic Health Conditions based from the 2020 Guernsey County Health Survey (Illuminology, The Ohio State University College of Public Health and Cambridge-Guernsey Health Department, 2020).

| | Guernsey County (643 respondents) |
|--|--|
| Ever been diagnosed with high blood pressure | 38.8% |
| Ever been diagnosed with high blood cholesterol | 34.5% |
| Ever been diagnosed with diabetes | 17.4% |
| Ever been diagnosed with asthma | 11.6% |
| Ever been diagnosed with Chronic Obstructive Pulmonary Disease (COPD) or emphysema | 9.3% |
| Ever been diagnosed with coronary heart disease | 8.2% |
| Ever been diagnosed with heart attack | 7.2% |

Appendix B — 16. Most common diagnoses and ICD-10 codes among patients seen at the Southeastern Ohio Regional Medical Center (SEORMC) Emergency Department in 2019.

| Most Common Diagnoses Overall | Most Common Hospital Inpatient Diagnosis |
|--|---|
| Acute upper respiratory infection (J06.9) | Single liveborn infant, delivered vaginally (Z38.00) |
| Urinary tract infection, site not specified (N39.0) | Sepsis, unspecified organism (A41.9) |
| Chest pain, unspecified (R07.9) | Pneumonia, unspecified organism (J18.9) |
| Unspecified injury of head, initial encounter (S09.90XA) | Other specified diseases and conditions complicating pregnancy, childbirth, and the puerperium (O99.89) |
| Unspecified abdominal pain (R10.9) | Chest pain, unspecified (R07.9) |
| Acute bronchitis, unspecified (J20.9) | Single liveborn infant, delivered by cesarian (Z38.01) |
| Other chest pain (R07.89) | Chronic obstructive pulmonary disease with acute exacerbation (J44.1) |
| Pneumonia, unspecified organism (J18.9) | Urinary tract infection, site not specified (N39.0) |
| Acute pharyngitis, unspecified (J02.9) | Acute kidney failure, unspecified (N17.9) |
| Non-infective gastroenteritis and colitis, unspecified (K52.9) | Hypertensive heart disease with heart failure (I11.0) |
| Nausea with vomiting, unspecified (R11.2) | Encounter for supervision of other normal pregnancy, third trimester (Z34.83) |
| Streptococcal pharyngitis (J02.0) | Other chest pain (R07.89) |
| Constipation, unspecified (K59.00) | False labor before 37 completed weeks of gestation, third trimester (O47.03) |
| Low back pain (M54.5) | Hypertensive heart and chronic kidney disease with heart failure and with stage 1 through 4 chronic kidney disease, or unspecified chronic kidney disease (I13.0) |
| Headache (R51) | Post-term pregnancy (O48.0) |
| Dizziness and giddiness (R42) | Paroxysmal atrial fibrillation (I48.0) |
| Anxiety disorder, unspecified (F41.9) | Precordial pain (R07.2) |
| Bronchitis, not specified as acute or chronic (J40) | Chronic obstructive pulmonary disease with acute lower respiratory infection (J44.0) |
| Strain of muscle, fascia and tenon of lower back, initial encounter (S39.012A) | Decreased fetal movements, third trimester, not applicable or unspecified (O36.8130) |
| Syncope and collapse (R55) | Encounter for supervision of normal first pregnancy, third trimester (Z34.03) |

Appendix B – 17. Noble County Health Assessment Survey — Self-Reported Information by Noble County Residents on Health Care Coverage and Access and Utilization of Healthcare. The Noble County self-report data are compared to Ohio and United States (Noble County Health Department and Hospital Council of Northwest Ohio, 2021).

| | Measure | Noble County 2021 | Ohio 2019 | United States 2019 |
|------------------------|--|--------------------------|------------------|---------------------------|
| Health Care Coverage | Percent Uninsured | 8% | 9% | 11% |
| Access and Utilization | Had at least one person they thought of as their personal doctor or health care provider | 84% | 80% | 77% |
| Access and Utilization | Visited a doctor for a routine check-up in the past year | 72% | 78% | 78% |
| Access and Utilization | Needed to see a doctor in the past 12 months but could not because of cost | 12% | 12% | 12% |

Appendix B — 18. Noble County Health Assessment Survey — Self-Reported Information by Noble County Residents on Preventive Medicine related to Immunizations, Women’s Health, Men’s Health Screenings, and Oral Health Screenings. The Noble County self-report data are compared to Ohio and United States (Noble County Health Department and Hospital Council of Northwest Ohio, 2021).

| | Measure | Noble County 2021 | Ohio 2019 | United States 2019 |
|---------------------|---|--------------------------|------------------|---------------------------|
| Preventive Medicine | Had a pneumonia vaccination (age 65 and over) | 71% | 75% | 73% |
| Preventive Medicine | Had a flu vaccine the past year (age 65 and over) | 75% | 63% | 64% |
| Preventive Medicine | Ever had a shingles or zoster vaccine | 23% | 29% | 29% |
| Women’s Health | Had a mammogram within the past two years (age 40 and older) | 72% | 74% | 72% |
| Women’s Health | Had a Pap smear within the past three years (age 21 to 65) | 64% | 79% | 80% |
| Men’s Health | Had a prostate-specific antigen (PSA) test in the past two years (age 40 and older) | 47% | 34% | 33% |
| Oral Health | Visited a dentist or dental clinic in the past year | 69% | 67% | 68% |

Appendix B — 19. Noble County Health Assessment Survey — Self-Reported Information by Noble County Residents on Health Status Perceptions. The Noble County self-report data are compared to Ohio and United States (Noble County Health Department and Hospital Council of Northwest Ohio, 2021).

| | Measure | Noble County 2021 | Ohio 2019 | United States 2019 |
|---------------------------|--|--------------------------|------------------|---------------------------|
| Health Status Perceptions | Rated health as excellent or very good | 43% | 48% | 51% |

 - + 4-H development
 - + Agriculture and natural resources
 - + Community development
 - + Family and consumer sciences
 - + Master gardener program
 - + Supplemental Nutrition Assistance Program education

Appendix D. Documentation of Program Impacts from the Community Health Needs Assessment (CHNA) and Implementation Strategy Adopted in 2019 by Southeastern Ohio Regional Medical Center (SEORMC)

Priority Need 1 (2019 CHNA): Mental Health and Addiction (MHA)

MHA – 1. Medical stabilization – SEORMC will review options for offering inpatient medical stabilization. Primary goal will be to collect data to prove the need exists within the communities that SEORMC serve, and that program is sustainable.

Impacts During Calendar Year 2020 and 2021

After reviewing the data on community resources available in Guernsey County, SEORMC decided that there is no need to start an inpatient medical stabilization unit. Inpatient medical stabilization units are available in surrounding counties. SEORMC collaborated with the Muskingum Valley Health Center (MVHC) located at 1330 Clark Street, Cambridge, Ohio 43725. SEORMC physician liaison is currently investigating about the program and services offered by MVHC. This partnership and engagement will enable SEORMC providers to refer to MVHC.

MHA – 1.1. MVHC offers the following services (Muskingum Valley Health Centers, 2022):

- a. Behavioral health
- b. Mental health
- c. Adult primary care that provides acute and chronic management regarding healthcare needs
- d. Dental health that offers both preventative and restorative services
- e. Child health that provides overall health care from birth to age nineteen
- f. Podiatry that provides care specifically focusing on the feet and ankles
- g. Women's health that provides comprehensive gynecological and obstetrical care
- h. Pharmacy services participates in a federal program that assists patients on saving money on medications and provides healthcare resources within the community

MHA – 1.2. The collaborative activities between Southeast Ohio Regional Medical Center (SEORMC) and Muskingum Valley Health Center (MVHC) are tabulated below.

| Reporting Period | Dates | Partnering Agencies | Objective | Details of Collaborative Work |
|--------------------|---------------------|---|---|---|
| Calendar Year 2020 | September 18, 2020 | <ul style="list-style-type: none"> SEORMC Muskingum Valley Health Center (MVHC) | <ul style="list-style-type: none"> To cross-refer patients between SEORMC and MVHC | <ul style="list-style-type: none"> Learned about MVHC services related to medical stabilization |
| Calendar Year 2021 | February 18, 2021 | <ul style="list-style-type: none"> SEORMC Muskingum Valley Health Center (MVHC) | <ul style="list-style-type: none"> To cross-refer patients between SEORMC and MVHC | <ul style="list-style-type: none"> SEORMC leased a building to MVHC located at 316 Clark Street, Cambridge, Ohio 43725 |
| Calendar Year 2021 | June 1, 2021 | <ul style="list-style-type: none"> SEORMC Muskingum Valley Health Center (MVHC) | <ul style="list-style-type: none"> To cross-refer patients between SEORMC and MVHC | <ul style="list-style-type: none"> MVHC started providing care at the SEORMC Building |
| Calendar Year 2021 | June –December 2021 | <ul style="list-style-type: none"> SEORMC Muskingum Valley Health Center (MVHC) | <ul style="list-style-type: none"> To cross-refer patients between SEORMC and MVHC | <ul style="list-style-type: none"> SEORMC’s Case Management team provides education and information on community resources to patients who are repeat offenders or have addiction issues. SEORMC’s Case Management sets up appointments for patients in need of MVHC mental health and addiction services. SEORMC’s Primary Care Providers refer patients to MVHC’s Medication Assisted Treatment (MAT). |

MHA – 1.3 —SEORMC Pain Management Clinic — On October 14, 2021, SEORMC opened the Pain Management Clinic located at 1210 Neal Drive, Cambridge, Ohio 43725. The Pain Management Clinic helps in treating the following conditions: (a) neck and back pain, (b) sciatica, (c) headaches/whiplash, (d) arthritis, (e) Reflex Sympathetic Dystrophy (RSD), and muscle spasms. RSD is a pain that shows up in arms and legs because of injury, stroke, or heart attack.

The table below summarizes the planning and opening of SEORMC’s Pain Management Clinic during Calendar Year 2021. The number of patients served during Calendar Year 2021 are also reported.

| Reporting Period | Date | Impacts |
|--------------------|--------------------------------------|--|
| Calendar Year 2020 | January – December 2020 | <ul style="list-style-type: none"> Not applicable. The program was not started in Calendar Year 2020 due to the COVID-19 pandemic. |
| Calendar Year 2021 | August 2021 – October 2021 | <ul style="list-style-type: none"> Planning and opening of the Pain management Clinic |
| Calendar Year 2021 | October 14, 2021 | <ul style="list-style-type: none"> Start of patient care and management |
| Calendar Year 2021 | October – November 2021 | <ul style="list-style-type: none"> SEORMC Emergency Department referred one patient to the Pain Management Clinic |
| Calendar Year 2021 | October 14, 2021 – December 31, 2021 | <ul style="list-style-type: none"> 592 referrals were received. 200 patients were provided with pain management care, including assessment, medications, procedures, and integrative care. |

MHA – 2. Coordination of care – SEORMC will work to coordinate local resources around mental health and addiction to create a transition of care that gets the patients the care they need at the time they need it. SEORMC will coordinate with Cedar Ridge Behavioral Health Solutions, AllWell Behavioral Health Services, C.H.O.I.C.E.S., Muskingum Valley Health Center, Noble County Health Department, Noble County C.A.R.E.S. (Community, Access, Resources, Education, Services), Genesis HealthCare System and Cambridge-Guernsey County Health Department.

Impacts for Calendar Year 2020 and 2021

SEORMC coordinated care for patients with mental health and addiction diagnoses by referring them to Allwell Behavioral Services. Patients who did not need referral were provided information about mental and behavioral health agencies in Noble and Guernsey counties. SEORMC continues to collaborate with Noble County Health Department, Cambridge-Guernsey County Health Department, Cedar Ridge Behavioral Health Solutions, C.H.O.I.C.E.S Anti-Drug Coalition of Guernsey County.

MHA – 2.1. SEORMC’s Collaboration with AllWell Behavioral Health Services, National Alliance on Mental Illness (NAMI) and Genesis Health Systems — The SEORMC Case Management Director participated in various networking meetings with AllWell, NAMI, and Genesis Health Systems to improve cross referrals, strengthen partnerships, and services.

MHA – 2.1.1. SEORMC’s mental and behavioral health referrals to AllWell Behavioral Health Services —

| Community Agency | Calendar Year 2020 Referrals | Calendar Year 2021 referrals |
|------------------------------------|------------------------------|------------------------------|
| AllWell Behavioral Health Services | 31 referrals | 27 referrals |

MHA – 2.1.2. SEORMC’s Collaborative Meetings with AllWell, NAMI (National Alliance on Mental Illness), and Genesis — SEORMC’s Case Management Director participated in the meetings tabulated below.

| Reporting Period | Date of Meeting | Participating Agencies | Accomplishments |
|--------------------|-------------------|--|---|
| Calendar Year 2020 | April 20, 2020 | <ul style="list-style-type: none"> SEORMC AllWell Behavioral Health Services | <ul style="list-style-type: none"> Developed a system to complete mental health evaluations of patients virtually |
| Calendar Year 2020 | August 14, 2020 | <ul style="list-style-type: none"> SEORMC AllWell Behavioral Health Services | <ul style="list-style-type: none"> Discussed ongoing communication regarding patient referrals |
| Calendar Year 2021 | January 19, 2021 | <ul style="list-style-type: none"> SEORMC NAMI | <ul style="list-style-type: none"> Discussed strategies to increase networking among agencies |
| Calendar Year 2021 | April 15, 2021 | <ul style="list-style-type: none"> SEORMC AllWell Behavioral Health Services | <ul style="list-style-type: none"> Discussed current contracts and partnerships among agencies |
| Calendar Year 2021 | April 20, 2021 | <ul style="list-style-type: none"> SEORMC NAMI | <ul style="list-style-type: none"> Discussed updates of programs and services |
| Calendar Year 2021 | May 18, 2021 | <ul style="list-style-type: none"> SEORMC NAMI | <ul style="list-style-type: none"> Discussed COVID-19 guidelines |
| Calendar Year 2021 | July 20, 2021 | <ul style="list-style-type: none"> SEORMC NAMI Genesis | <ul style="list-style-type: none"> Learned and discussed programs and services offered by Genesis |
| Calendar Year 2021 | October 19, 2021 | <ul style="list-style-type: none"> SEORMC NAMI | <ul style="list-style-type: none"> Discussed programs plans and updates |
| Calendar Year 2021 | November 16, 2021 | <ul style="list-style-type: none"> SEORMC NAMI | <ul style="list-style-type: none"> Attended the NAMI board meeting that focused on program updates and the process used by AllWell in completing mental health screenings and assisting with transferring patients to appropriate psychiatric facilities |

MHA – 2.2. SEORMC’s Collaborations with Cedar Ridge Behavioral Health Solutions — SEORMC healthcare professionals learned about the programs and services of Cedar Ridge Behavioral Health Solutions and process for referrals (Cedar Ridge Behavioral Health Solutions, 2022). The Cedar Ridge Behavioral Health Solutions’ programs and services include:

- (a) Residential Services
- (b) Outpatient Services
- (c) Medication-Assisted Treatment
- (d) Psychiatric Services
- (e) Recovery Housing
- (f) Intensive Outpatient Programs
- (g) Employment Services
- (h) Groups Services
- (i) Driver Intervention Services
- (j) Department of Transportation (DOT) Testing
- (k) COVID-19 Rapid Testing

MHA – 2.3. SEORMC’s Collaborations with Guernsey Health Choices, Inc. — SEORMC healthcare professionals learned about the programs and services of Guernsey Health Choices, Inc. and process for referrals (Guernsey Health Choices, Inc., 2022). The Guernsey Health Choices’ programs and services include:

- (a) **Mental and behavioral health assessments** — includes determining the patient’s needs related to mental health, substance use disorders, and dual diagnosis
- (b) **Outpatient counseling** — includes alcohol and substance abuse counseling, mental health counseling, dual diagnosis counseling, and Eye Movement Desensitization and Reprocessing (EMDR)
- (c) **Support groups** — includes Intensive Outpatient Program (IOP), anger management, domestic violence, recovery management, trauma care, parenting, cognitive behavioral Interventions, medication-assisted treatments, recovery, living in balance, and peer support
- (d) **Case management** — includes assessment of social determinants of health such as housing, transportation, jobs, food security, medical-related needs, access to Social Security benefits, education, and financial management.

MHA – 2.4 SEORMC’s Collaboration with Muskingum Valley Health Center (MVHC) —SEORMC provided space for MVHC to expand Medication-Assisted-Treatment services. Refer to MHA – 1.1 and MHA – 1.2 for details on the partnerships.

MHA – 2.5. SEORMC’s Collaboration with the Noble County Health Department — SEORMC’s Wellness Coordinator has implemented the following:

MHA – 2.5.1. Collaboration with the Noble County Wellness Coalition — participation in all meetings and activities with the Noble County Wellness Coalition, which provides community education and health and wellness, family fun activities, and promotion of healthy living. The Noble County Wellness Coalition’s mission is “to assist the people of Noble County in improving their lives by maintaining a healthy county environment through a sustainable, collaborative process that supports community physical and nutritional needs.” The Wellness Coalition members’ vision “includes being committed to serving their community and creating the best place to live, work, play, grow, and enjoy life.”

- MHA – 2.6. Collaboration with Noble County in the implementation of community wellness activities —**
The SEORMC Wellness Coordinator, Hannah Bingham, led the collaborative work with the Noble County Health Department.

Calendar Year 2020

| Dates of Events | Activities | Community Partners | Persons Served (if applicable) |
|------------------------|---|--|---------------------------------------|
| October 14, 2020 | Noble County Breast and Cervical Cancer Program (BCCP) case manager completed a provider visit with Community Health Link to update the Breast and Cervical Cancer Program (BCCP) and any changes made in the grant year. | Noble County Health Department, SEORMC | Not applicable |
| January-December 2020 | SEORMC did complete self-requesting mammograms for community members in place of mobile mammography services and Community Health Link screenings, as the services were on hold due to COVID-19 restrictions | OhioHealth, Noble County Health Department, SEORMC | 26 persons |

Calendar Year 2021

| Dates of Events/Programming | Activities | Community Partners | Persons Served |
|------------------------------------|---|--|-----------------------|
| April 2, 2021 | Hannah Bingham, Wellness Coordinator, and Leisa Arnold, Radiology Coordinator, met with Heather Rockhold from OhioHealth to discuss mammography needs within our community and the process of scheduling and follow-up visits if needed to provide progress to the CHNA action item of improving access to care in our community. | Ohio Health, Superior Medical Practice | Not applicable |
| May 12, 2021 | Hannah Bingham met with OhioHealth representatives to plan for Mobile Mammography Unit coming to Becky Hall's office on June 15th, 2021. Discussed registration process, marketing materials, and education on the day of the event. | SEORMC, OhioHealth | Not applicable |

Continuation of MHA – 2.6. Collaboration with Noble County in the implementation of community wellness activities:

Calendar Year 2021

| Dates of Events/Programming | Activities | Community Partners | Persons Served |
|-----------------------------|---|-----------------------------------|----------------|
| June 15,2021 | SEORMC's Oncology Navigator present at Ohio Health Mammography Unit to provide support and education on site to participants. | OhioHealth, SEORMC | 12 women |
| July 22,2021 | SEORMC's Wellness Coordinator and Oncology Navigator, participated in discussion/meeting with Dr. Melissa Thomas representing the Komen Foundation in efforts to collaborate on the mobile mammography unit in rural areas | Komen/Hoffnung Foundation, SEORMC | Not applicable |
| September 14,2021 | The Ohio Health Mobile Mammography Unit visited Calais, Ohio, serving 17 community women. SEORMC's Wellness Coordinator and Oncology Navigator completed registration, planning, and organizing the event, coordinating location, working with Ohio Health contacts to work through processes, and schedule appointment times. SEORMC's Oncology Navigator completed several site visits to perform outreach in the Calais community to market to the Amish community and register women for this event. SEORMC's Oncology Navigator also spent time coordinating with the Ohio Health Breast Navigator to determine if patients qualified for BCCP benefits to receive full coverage of their mammograms. SEORMC's Wellness Coordinator and Oncology Navigator were present the day of the event to register each patient and complete outreach. | SEORMC, OhioHealth | 17 women |

Continuation of MHA – 2.6. Collaboration with Noble County in the implementation of community wellness activities:

Calendar Year 2021

| Dates of Events/Programming | Activities | Community Partners | Persons Served |
|------------------------------------|--|--|-----------------------|
| October 13,2021 | The OhioHealth Mobile Mammography Unit visited Caldwell, Ohio, at Superior Med. | SEORMC, OhioHealth | 15 women |
| October 20, 2021 | Women were evaluated with the breast screening risk assessment and reviewed by Dr. Sarap. The Breast and Cervical Cancer Program (BCCP) was on site and evaluated and enrolled all 4 participants. | SEORMC, Noble County Breast and Cervical Cancer Program (BCCP) | 4 women |
| October 28,2021 | Hoffnung/Komen Mobile Mammography Unit in Salesville, Ohio. | Hoffnung/Komen, SEORMC | 18 women |

MHA – 2.7. SEORMC partnerships with the Cambridge-Guernsey County Health Department (CGCHD)

— SEORMC collaborated with CGCHD to provide community COVID-19 vaccine clinics during initial COVID-19 pandemic to offset the vast need for COVID-19 vaccinations within Guernsey County. SEORMC also collaborated with CGCHD by participating in routine meetings with Noble and Guernsey County Emergency Management Agencies and Noble County Health Department during the pandemic to share experiences and provide resources to one another's organization. The table below shows a summary of the meetings that SEORMC representatives attend as part of CGCHD Community Health Assessment and Community Health Improvement Plan. SEORMC representatives actively participated in the mental health and addiction and chronic disease work groups.

Calendar Year 2020

In Calendar Year 2020, SEORMC was primarily involved in collaborations related to health and wellness programs and planning and developing the Guernsey County Community Health Improvement Plan. SEORMC's Calendar Year 2020 activities are summarized below.

| Dates of Meetings | Activities | Community Partners | Persons Served |
|--------------------------|---|---|-----------------------|
| March 9, 2020 | Wellness and Education coordinators met with the Director of Nursing, Director, Health Educator, of the Cambridge-Guernsey County Health Department to discuss what programs are offered within the organization and community to move forward with restructuring area programs and lifestyle classes that are offered to the broader community. | Cambridge-Guernsey County Health Department (CGCHD), SEORMC | Not applicable |
| August 13, 2020 | Wellness Coordinator represented SEORMC in Cambridge-Guernsey County Health Department's Community Health Assessment virtual meeting. Primary focus of the meeting was to discuss and brain-storm the biggest community needs/issues that should be addressed in the Guernsey County Community Health Assistant. The Wellness Coordinator worked with various community stakeholders to create a list of most important issues. | CGCHD, SEORMC | Not applicable |
| November 4, 2020 | SEORMC's Wellness Coordinator participated in the Chronic Disease Workgroup to initiate planning for developing the Guernsey County Community Health Improvement Plan. | CGCHD, SEORMC | Not applicable |

Calendar Year 2021

In Calendar Year 2021, SEORMC was primarily involved in collaborating with the Cambridge-Guernsey County Health Department in providing access to COVID-19 Vaccination Clinics to the community free of charge. The Calendar Year 2021 activities are summarized below.

| Dates of Meetings | Activities | Community Partners | Persons Served |
|--------------------------|---|---|-----------------------|
| January 5, 2021 | COVID-19 Vaccine administration planning and offering community vaccine clinics to the public | Cambridge-Guernsey County Health Department (CGCHD), SEORMC | 0 |
| January 23, 2021 | Community Vaccine Clinic offered first dose for persons age 80 years and older | CGCHD, SEORMC | 220 |
| January 30, 2021 | Community Vaccine Clinic offered first dose for 75 years and older | CGCHD, SEORMC | 220 |
| January 31, 2021 | Vaccine administration planning and offering community vaccine clinics to the public | CGCHD, SEORMC | 0 |
| February 6, 2021 | Community Vaccine Clinic offered first dose for 70 years and older | CGCHD, SEORMC | 201 |
| February 8, 2021 | Task Force Planning Meeting | CGCHD, SEORMC | 0 |
| February 11, 2021 | Sharing vaccine information with the public | CGCHD, SEORMC, AVC Communications | 0 |
| February 13, 2021 | Community COVID-19 Vaccine Clinic offered first dose for 65 years and older | CGCHD, SEORMC | 200 |
| February 19, 2021 | Community Vaccine administration | CGCHD, SEORMC | 3 |
| February 20, 2021 | COVID-19 Vaccine clinic second dose 80 yrs. And older | CGCHD, SEORMC | 209 |
| February 23, 2021 | Community Collaboration call on COVID-19 Vaccines | MVHC, CGCHD, SEORMC | 0 |
| February 25, 2021 | COVID-19 Vaccine Clinic to the public | CGCHD, SEORMC | 120 |
| February 27, 2021 | COVID-19 Vaccine Clinic to the public | CGCHD, SEORMC | 233 |
| March 4, 2021 | COVID-19 Vaccine Clinic to the public | CGCHD, SEORMC | 219 |
| March 6, 2021 | COVID-19 Vaccine Clinic to the public | CGCHD, SEORMC | 198 |
| March 10, 2021 | COVID-19 Vaccine Clinic to the public | CGCHD, SEORMC | 114 |
| March 11, 2021 | COVID-19 Vaccine Clinic to the public | CGCHD, SEORMC | 110 |
| March 13, 2021 | COVID-19 Vaccine Clinic to the public | CGCHD, SEORMC | 203 |
| March 16, 2021 | Vaccine Task Force Meeting | CGCHD , SEORMC | 0 |

Continuation of MHA— 2.7. SEORMC partnerships with the Cambridge-Guernsey County Health Department (CGCHD)

Calendar Year 2021

Meetings involved collaboration and sharing of experiences of those involved. | SEORMC, Guernsey and Noble County Emergency Management Agencies, Noble County Health Department., CGCHD | Not applicable |

MHA – 3. Compassion fatigue – SEORMC will look at implementing annual community wide resiliency training to all interested patient caregivers**MHA – 3.1. Collaboration with Genesis Healthcare System on providing community resiliency training to caregivers**

Genesis Healthcare Systems and Allwell Behavioral Health Services in partnership with SEORMC provided COVID-19: Building Resilience training to area agencies along with community caregivers. Learned objectives include:

- Recognizing and understanding emotional response
- Identifying how thinking patterns contribute to increased stress and anxiety
- Explore how to change over thinking patterns to reduce stress and anxiety
- Learn how to develop a personalized plan for improving resilience

SEORMC participated in planning meetings with AllWell Behavioral Health Services and Genesis related to this community resiliency training. The details are shown below.

| Reporting Period | Dates of meeting | Participating Agencies | Meeting Details |
|--------------------|--------------------|--|--|
| Calendar Year 2020 | September 10, 2020 | SEORMC, AllWell Behavioral Health Services, Genesis | Discussed dates of training and who would be involved |
| Calendar Year 2020 | November 20, 2020 | SEORMC, AllWell Behavioral Health Services, Genesis | Meeting to discuss goals of resiliency training, target audience, marketing, and future collaboration. |
| Calendar Year 2021 | May 8, 2021 | SEORMC, All Well Behavioral Health Services, Genesis | Meeting to discuss future training dates |

The details of the community resiliency training and the number of participants is shown below.

| Reporting Period | Dates of training | Participating Agencies | Number of Participants |
|--------------------|-------------------------------|--|------------------------|
| Calendar Year 2021 | February 26, 2021 | SEORMC Wellness Coordinator, AllWell Behavioral Health Services, Genesis | 4 participants |
| Calendar Year 2021 | March 4, 2021 | SEORMC, AllWell Behavioral Health Services, Genesis, People to People Counseling Services, Guernsey County Board of Developmental Disabilities | 19 participants |
| Calendar Year 2021 | March 30, 2021 | SEORMC, Area Agency on Aging, Job & Family Services | 4 participants |
| Calendar Year 2021 | May 17, 2021; May 20, 2021 | SEORMC, AllWell Behavioral Health Services, Genesis | 9 participants |
| Calendar Year 2021 | October 28, 2021 | SEORMC, AllWell Behavioral Health Services, Genesis | 7 participants |
| Calendar Year 2021 | November 11, 2021 | SEORMC, AllWell Behavioral Health Services, Genesis | 6 participants |

MHA – 4. Regional drug coalition – SEORMC will continue to coordinate an active and sustainable regional drug coalition in collaboration with various mental and behavioral health agencies. (This action aligns with the Ohio 2017-2019 State Health Improvement Plan.)

MHA – 4.1. Summary of SEORMC meetings with Noble County C.A.R.E.S. to learn about existing mental health and addiction programs and services. C.A.R.E.S. represent Community, Access, Resources, Education, and Services. Noble County C.A.R.E.S. has focused in addressing Noble County’s alarming opiate problem.

Calendar Year 2020

| Dates of Meetings | Topics/Discussion | Community Partners | Persons Served |
|--------------------|--|--|----------------|
| January 16, 2020 | Recovery Resources/Emerging Trends | Noble County Health Department (NCHD), SEORMC, All Well Behavioral Health Services | Not applicable |
| February 20, 2020 | Drug Overdose Trends in Noble County, Community Education on vaping | NCHD, SEORMC, AllWell Behavioral Health Services | Not applicable |
| May 21, 2020 | COVID-19 Impacts on area agencies | NCHD, SEORMC, AllWell Behavioral Health Services | Not applicable |
| July 16, 2020 | COVID-19 and impacts of AllWell telehealth visits for clients, filling workforce needs | NCHD, SEORMC, AllWell Behavioral Health Services | Not applicable |

MHA 4.2. Collaboration with CHOICES Anti-Drug Coalition of Guernsey County

The SEORMC Chief Nursing Officer, Gina Woods, MSN, RN, NEA-BC actively participated in CHOICES Anti-Drug Coalition of Guernsey County, which is a regional drug collaborative in Guernsey County. CHOICES represent the concepts of Community, Hope, Oppportunity, Independence, Change, Empowerment, Success. The main objective is to address drug addiction and substance use.

MHA –4.3. Outcomes from SEORMC’s alignment with the State Health Improvement Plan (SHIP) through participation in regional drug coalitions.

As indicated in MHA 4.1 and MHA 4.2, SEORMC and its representatives have been actively involved in Noble County CARES and CHOICES Anti-Drug Coalition of Guernsey County. The Table below shows drug addiction and substance use data for Guernsey and Noble Counties based on County Health Rankings for Guernsey and Noble County that was released in 2019, 2020 and 2021. Positive impact (highlighted in yellow) of SEORMC’s collaborative efforts to participate in regional coalitions was observed through decrease in rates of drug overdose deaths suicides, excessive drinking, alcohol-related traffic deaths, and increase in mental health providers.

| Mental Health and Addiction Measure | County Health Rankings Data Year | Guernsey County | Noble County | Ohio |
|--|---|------------------------|--------------------------|------------------|
| Drug overdose deaths Number of drug poisoning deaths per 100,000 population | 2019 | 31 | 26 | 37 |
| | 2020 | 29 | 23 | 38 |
| | 2021 | 27 | No data | 38 |
| | Progress status | Decreased | Decreased | Increased |

| June 4, 2021 | Encore Plastics — 725 Water St. Cambridge, Ohio 43725 | SEORMC Wellness Coordinator met with Encore Plastics' Human Resources Manager to provide education and resources for the company's Employee Health Fair on June 16 and 17, 2021. | 250 employees |

CD – 3. Lifestyles classes – Review classes and assess the need to offer additional classes or refine the ones already available. Coordinate with local agencies to increase class attendance within the community’s already available health classes related to diabetes and obesity. Lastly, coordinate with local agencies to reduce overlap and better coordinate classes being offered within the community.

CD – 3.1. Learning and review of lifestyle classes targeting people with diabetes or prediabetes that are available in Guernsey and Noble Counties to refer SEORMC patients—

| Date | Responsible Person | Outcome of Meeting/Education Program |
|------------------------------|---|--|
| February 5, 2020 | <ul style="list-style-type: none"> • SEORMC Wellness Coordinator • Area Agency on Aging Region 9 | <ul style="list-style-type: none"> • Learned about diabetes programs offered by the Area Agency on Aging Region 9. • Classes were cancelled due to COVID-19. |
| March 2, 2020 | <ul style="list-style-type: none"> • SEORMC Wellness Coordinator • Noble County Health Department | <ul style="list-style-type: none"> • Learned about the Diabetes Self-Management Education (DSME) programs offered by the Noble County Health Department and First Church of the Nazarene • Classes were cancelled due to COVID-19. |
| Calendar Years 2020 and 2021 | <ul style="list-style-type: none"> • SEORMC Wellness Coordinator • The Ohio State University Extension Guernsey County educator (Supplemental Nutrition Assistance Program) | <ul style="list-style-type: none"> • Education on healthy eating and creating a healthy lifestyle • 0 persons served in Calendar Year 2020 due to COVID-19 pandemic • 15 persons served in calendar Year 2021 |

CD – 4. Diabetes Self-Management Education – implement DSME classes in collaboration with the Ohio Area Agency on Aging and Area Agency on Aging Region 9. *(This action aligns with the Ohio 2017-2019 State Health Improvement Plan.)*

- CD – 4.1.** Diabetes outpatient assessment and individualized education provided by SEORMC’s diabetetic educator which includes diet, medication, monitoring, creating goals, and establishing an improved lifestyle. The three-part series diabetes classes which contain same content as 1:1 education with more detailed content in a supportive atmosphere.

| Clinic Name/Inpatient Department Name | Number of Patients Served in Calendar Year 2020 | Number of Patients Served in Calendar Year 2021 |

| SEORMC Support Group for People with Diabetes 3-part series diabetes classes which contain same content as 1:1 education with more detailed content in a supportive atmosphere, ended in March of 2020 due to COVID-19. | 10 (In-person January to February 2020; discontinued from March to December 2020 due to the COVID-19 pandemic) | 87 (Education was provided by telephone throughout Calendar Year 2021) |
| SEORMC Inpatient Diabetes Education Diabetes educator provided inpatient diabetes education based on evidenced-based curricula | 191 hospitalized patients | 184 hospitalized patients |

CD – 4.2. Referral of SEORMC patients to the Ohio Area Agency on Aging Region 9 Diabetes Self-Management Education — The Ohio Area Agency on Aging Region 9 serves Guernsey County, Belmont County, Carroll County, Coshocton County, Harrison County, Holmes County, Jefferson County, Muskingum County, and Tuscarawas County . The Ohio Area Agency on Aging Region 9 provides Diabetes Self-Management Education in Guernsey County. The curricula is delivered in six, weekly, interactive, small-group sessions that teaches evidenced-based strategies for managing type 2 diabetes and prediabetes. The Diabetes Self-Management Education uses volunteer instructors, or “lay leaders,” to conduct the workshops. Volunteers often have ongoing health issues and lived experience themselves, which are valuable when interacting with workshop participants. The education focuses on food, how to count carbohydrates, meal planning, depression, sleep disorders, communicating with primary care providers and healthcare system while building upon education learned from each week.

In February 2020, the SEORMC Wellness Coordinator, Hannah Bingham met with the social worker from the Ohio Area Agency on Aging Region 9 to learn more about the programs and workshops and strategies for referring SEORMC patients. Moreover, Hannah Bingham also met with the SEORMC diabetes educator to discuss an effective approach of ensuring an effective referral process. However, due to the COVID-19 pandemic, the Ohio Area Agency on Aging Region 9 did not conduct classes in Calendar Years 2020 and 2021.

- CD – 4.3. Outcomes from SEORMC’s alignment with the State Health Improvement Plan (SHIP) —** manifested through SEORMC’s diabetes self-management education programs and services and collaboration with the Ohio Area Agency on Aging Region 9 and other community organizations. Positive impacts were achieved in diabetes prevalence, Food Environment Index, access to exercise opportunities, preventable hospital stays and flu vaccinations.

Priority Need 3 (2019 CHNA): Access to Care (AC)

AC – 1. Assist Noble County in their application for a Federally Qualified Health Clinic (FQHC) by: (a) supporting in the application process, (b) providing data pertinent to Noble County's community health needs, and (c) reviewing needs for financial assistance.

Impacts During Calendar Year 2020 and 2021

Noble County decided not to proceed with its application for a Federally Qualified Health Center (FQHC). Noble County set-up the Caldwell Family Health Center, which was operated by Ohio Hills Health Centers, an existing FQHC that serves southeast Ohio Counties. The Caldwell Family Health Center is located at 44069 Marietta Road, Suite 200, Caldwell, Ohio 43724-9124 (Ohio Hills Health Centers, 2022). Due to the change in Noble County's decision not to proceed with its FQHC application, they did not need data related to community health needs and assistance with reviewing Noble County needs for financial assistance.

Apart from having a clinic in Caldwell, Ohio, the Ohio Hills Health Centers have clinics in Barnesville, Freeport, Quaker City, and Woodsfield. The Ohio Hills Health Centers serves Belmont, Guernsey, Harrison, Monroe, and Noble Counties with the following services: (a) family and internal medicine (b) immunizations, laboratory and x-ray services, (c) preventive care, (d) patient education and support, and (e) individual and family counseling.

AC– 2. Collaborate with local agencies such as (but not limited to) Guernsey County Senior Citizen Center, Southeast Area Transit, and managed care agencies (CareSource, Molina Healthcare, Buckeye Health Plan, United Healthcare, Paramount Advantage) to provide patients with access to transportation to medical appointments within Guernsey and Noble Counties.

Impacts During Calendar Year 2020 and 2021

AC – 2.1. Patients who received transportation assistance in Calendar Year 2020 and 2021 — SEORMC collaborated with the Guernsey County Senior Citizens Center, Inc. in providing access to transportation.

| Community Partner | Briefly Explain Transportation Assistance Program | Count of patients provided with transportation assistance in Calendar Year 2020 | Count of patients provided with transportation assistance in Calendar Year 2021 |
|---|--|---|---|
| <p>Guernsey County Senior Citizen Center: 1022 Carlisle Ave. Cambridge, Ohio 43725</p> | <ul style="list-style-type: none"> • The transportation assistance program is available to all Guernsey County residents, age 60 and older. • The vehicles include four modified minivans, six handicap vans, one 16-passenger van and three standard size passenger vans. • Transportation is provided to help patients go to medical appointments, financial institutions, retail stores, nutrition sites, social activities, and places of employment. | <ul style="list-style-type: none"> • 322 one-way trips • 16 referrals | <ul style="list-style-type: none"> • 520 one-way trips • 26 referrals |

AC – 3. Collaborate with OhioHealth in providing mobile mammography services to Noble County.**Impacts During Calendar Year 2020 and 2021****AC – 3.1. Number of patients who had a mammography screening** — including diagnostic or ultrasound from SEORMC during Calendar Years 2020 and 2021

| | Number of Patients Served in Calendar Year 2020 | Number of Patients Served in Calendar Year 2021 |
|----------------------|--|--|
| Screening Mammogram | 3,161 | 3,696 |
| Diagnostic Mammogram | 242 | 333 |
| Ultrasound Follow-Up | 662 | 768 |

AC – 3.2. Collaboration with OhioHealth Mobile Mammography —**Calendar Year 2020**

The OhioHealth Mobile Mammography unit did not come to Noble County in 2020 due to the COVID-19 pandemic and outreach services being put on hold. SEORMC and OhioHealth collaborated to discuss future services in rural areas, specifically targeted in Noble County

Calendar Year 2021

The OhioHealth Mammography unit came to Calais, Ohio on September 14, 2021, and SEORMC's Medical Practice office on June 15, 2021 and October 12, 2021, serving uninsured or underinsured women. SEORMC collaborated with OhioHealth to offer mobile mammography services to uninsured and underinsured women in Noble and surrounding counties.

AC – 3.2. Summary of activities related to providing mammography services in Noble County in collaboration with the OhioHealth Mammography Unit.

| Dates of Events/ Programming | Activities | Community Partners | Persons Served |
|---|--|---|---------------------------|
| April 2, 2021 | <ul style="list-style-type: none"> Hannah Bingham, Wellness Coordinator, and Leisa Arnold, Radiology Coordinator, met with Heather Rockhold from OhioHealth to discuss mammography screening needs within Noble County. The meeting discussed process of scheduling and follow-up visits if needed as means of improving access to care in our community. | OhioHealth, Superior Med Clinic | Not applicable |
| May 12, 2021 | <ul style="list-style-type: none"> Hannah Bingham met with Ohio Health representatives to plan for Mobile Mammography Unit coming to Becky Hall's office on June 15, 2021. Discussed registration process, marketing materials, and education on the day of the event. | SEORMC, OhioHealth | Not applicable |
| June 15, 2021 | <ul style="list-style-type: none"> SEORMC's Oncology Navigator present at Ohio Health Mammography Unit to provide support and education on site to participants. | OhioHealth, SEORMC | 12 women |
| July 22, 2021 | <ul style="list-style-type: none"> SEORMC's Wellness Coordinator and Oncology Navigator, participated in discussion/meeting with Dr. Melissa Thomas representing the Komen Foundation in efforts to collaborate on the Hoffnung/Komen Mobile Mammography unit in rural areas. | Komen/Hoffnung Foundation, SEORMC | Not applicable |
| September 14, 2021 | <ul style="list-style-type: none"> The OhioHealth Mobile Mammography Unit provided service in Calais, Ohio and served 17 women. SEORMC's Wellness Coordinator and Oncology Navigator completed registration, planning, and organizing the event, coordinating location, working with OhioHealth contacts to work through processes, and schedule appointment times. SEORMC's Oncology Navigator completed several site visits to perform outreach in the Calais community to market to the Amish community and register women for this event. SEORMC's Oncology Navigator also spent time coordinating with the OhioHealth Breast Navigator to determine if patients qualified for BCCP benefits to receive full coverage of their mammograms. SEORMC's Wellness Coordinator and Oncology Navigator were present the day of the event to register each patient and complete outreach. | SEORMC, OhioHealth | 17 women |
| October 13, 2021 | The OhioHealth Mobile Mammography Unit provided service at Caldwell, Ohio, at Superior Med-Becky Hall's office. | SEORMC, Ohio Health | 15 women |
| October 20, 2021 | <p>Women were evaluated with the breast screening risk assessment and findings were reviewed by Dr. Sarap.</p> <p>The Breast and Cervical Cancer Program (BCCP) was on site and evaluated and enrolled 4 participants.</p> | SEORMC, Noble County BCCP | 4 women |
| October 28, 2021 | Hoffnung/Komen Mobile Mammography Unit provided service in Salesville, Ohio. | Hoffnung/Komen, SEORMC | 18 women |

AC - 4. Partner with Muskingum Valley Health Center (MVHC) and other community partners in developing comprehensive list of health education and healthcare resources within the local community and educate residents on how they can access the appropriate level of care to meet their healthcare needs.

Impacts During Calendar Year 2020 and 2021

AC – 4.1. SEORMC created a bulletin to help people find the OhioHealth Community Resource Directory — On November 1, 2021, SEORMC created a bulletin that summarizes the following: (a) directions on how to find resources using the [OhioHealth.findhelp.com](https://www.ohiohealth.com/ohiohealth/findhelp.com) website. The Community Resource Directory could be used to find free or reduced cost services that support good health, like transportation, food, housing, mental health services and financial assistance.

AC – 4.2. Partnership with the Muskingum Valley Health Center (MVHC) to distribute the bulletin — SEORMC partnered with MVHC to distribute the bulletin to the residents of Guernsey and Noble Counties.

AC – 4.3. Examples of community resources that address the priority health needs in the 2019 CHNA — include mental health and addiction, chronic disease, and access to care.

| Priority Health Needs (2019 CHNA) | Community Resources in Guernsey County) | Community Resources in Noble County |
|-----------------------------------|---|---|
| Mental Health and Addiction | • Cambridge-Guernsey County Health Department | • Noble County Health Department |
| | • People to People | • Allwell Behavioral Health Services |
| | • Alcohol and Drug Services of Guernsey County | • Thompkins Treatment, Inc. |
| | • Thompkins Residential/Intensive Outpatient Treatment Program | |
| | • Allwell Behavioral Health Services | |
| | • Cambridge Counseling Center | |
| Chronic Disease | • Cambridge-Guernsey County Health Department | • Noble County Health Department |
| | • Northside Oxygen & Medical Equipment | • Superior Med Caldwell Clinic |
| | • Grace Pantry | |
| | • The Salvation Army | |
| | • Cambridge Housing Authority | |
| Access to Care | • Guernsey County Health Department-Women's Health Services | • Noble County Health Department |
| | • Children's Health Insurance Program-Ohio Department of Medicaid | • Breast & Cervical Cancer Project (BCCP) |
| | • Children with Medical Handicaps-Service Coordination Program (BCMh) | |
| | • Interim Home Healthcare | |
| | • Alter Care of Ohio-Short-term Rehabilitation | |

AC – 5. Continue operations of SEORMC clinics in rural areas such as (but not limited to): (a) Outpatient Physical Therapy Caldwell Office located at 18125 Woodsfield Road, Caldwell, Ohio 43724 (Noble County), Melissa Nau, MD Family Practice Office located at 205 Seneca Avenue, Byesville, Ohio, 43723 (Guernsey County), and Kim Ronald Routh, DO, Family Practice Office located at 18125 Woodsfield Rd., Caldwell, Ohio, 43724 (Noble County).

Impacts During Calendar Year 2020 and 2021

AC – 5.1. Programs and services to address access to care in Noble County —

| Clinics in Rural Areas | Number of Patients Served in Calendar Year 2020 | Top Three Diagnoses in Calendar Year 2020 | Number of Patients Served in Calendar Year 2021 | Top Three Diagnoses in Calendar Year 2021 |
|--|---|--|---|---|
| SEORMC Outpatient Physical Therapy | 244 | <ul style="list-style-type: none"> Low back pain Pain in right shoulder Pain in right knee and Arthrodesis' Status | 304 | <ul style="list-style-type: none"> Dizziness/Giddiness Cervicalgia Pain in right shoulder |
| SEORMC Clarice Hall, CNP, Family Practice Office | 975 | <ul style="list-style-type: none"> Essential (primary) hypertension Encounter for immunization Type 2 Diabetes mellitus without complications | 905 | <ul style="list-style-type: none"> Essential (primary) hypertension Encounter for immunization Anxiety disorder, unspecified |

AC – 5.2. Participation in community outreach in Noble County —

| | Participation in Community (Calendar Year 2020) | Participation in Community (Calendar Year 2021) |
|------------------------------------|---|---|
| SEORMC Outpatient Physical Therapy | <ul style="list-style-type: none"> Offered physicals for area athletes at Cambridge Physical Therapy Campus. | <ul style="list-style-type: none"> Participated in Kiwanis Family Fun Day on July 24, 2021. The SEORMC Outpatient Physical Therapy provided rehabilitation education to community members. Participated in Noble County Wellness Coalition's 4th of July Freedom 5K on July 3, 2021. |
| SEORMC Family Practice Office | No activity due to COVID-19 restrictions | <ul style="list-style-type: none"> SEORMC's Family Practice Office was the site for the Mobile Mammography Unit on June 15, 2021, and October 12, 2021. The Mammography Unit served uninsured and/or underinsured women who live in Noble County. |
